Boccaccio And Fiammetta The Narrator As Lover:

Boccaccio and Fiammetta Janet Levarie Smarr, 1986 Boccaccio's and Chaucer's Cressida Laura Dowell Kellogg, 1995 During the Middle Ages the story of Cressida's infidelity to Troilus intrigued writers and different versions of this tale continued to be retold and reworked through the Renaissance This study focuses on the figure of Cressida in two fourteenth century works Boccaccio's Filostrato and Chaucer's Troilus and Criseyde and devotes particular attention both to classical and medieval prototypes for Cressida and to each narrator's role in shaping her The study's originality derives from its compelling demonstration of the tensions between a Cressida defined by literary history and convention and a Cressida recast through perceptually limited narrators Offering Dido as a dynamic model for Cressida this book provides an extensive treatment of Boccaccio's Dido The Cast of Character Warren Ginsberg, 1983-12-15 This book is concerned with the idea of character and the methods of representing it in ancient and medieval narrative fiction and shows how late classical and medieval authors adopted techniques and perspectives from rhetoric philosophy and sometimes theology to fashion figures who define not only themselves but also their readers Ginsberg first tests Ovid's concept in the Amores and the Metamorphoses against the conventions of classical tradition and shows how although Ovid's idea of character did not change his technique grew more subtle and complex as his art matured Ginsberg then employs the methods of biblical exegesis to show how medieval characters Gottfried's Tristan Dante's Farinata Chr tien's Yvain both exist as themselves and point to characters beyond themselves gaining depth and resonance because we see them in this perspective Perspective is also a distinguishing quality of the maturing of Boccaccio's art In the early works his characters seem to be little more than positions in a debate but as he grew more skilful the strict formalism of binary oppositions gave way to the complexity of experience characteristic of the probably true and culminating in the hundred perspectives of the Decameron In Chaucer's Canterbury Tales the pilgrims are both typical and individual twice formed by the tale and by the frame A character acts and the reader forms expectations of his acting and in the process character the abiding glory of medieval literature is created

Giovanni Boccaccio Joseph P. Consoli, 1992 *The Torments of Love* Héli-senne de Crenne, Lisa Neal, Steven Rendall, 1996 **Masterplots** Frank Northen Magill, 1996 **The Elegy of Lady Fiammetta** Giovanni Boccaccio, 1990-11-15 A milestone in feminist literature this marvelous European romance narrated by a woman is considered the first psychological novel in a modern language and a precursor of stream of consciousness fiction Written by Giovanni Boccaccio between 1343 and 1345 The Elegy has never before been available in a complete or accurate English translation Lady Fiammetta the first person narrator and protagonist recounts how although a married woman she falls in love with a handsome young foreigner named Panfilo and driven by irresistible passion becomes his lover Panfilo subsequently abandons Fiammetta and returns to his native land where his elderly father is said to be dying When he fails to keep his promise to return Fiammetta in what is the heart of the narrative describes her longings her anguish and her

despair A host of contradictory sentiments drive her to desperation and to an unsuccessful suicide attempt After a time Fiammetta resumes her futile wait for Panfilo She finally resolves to seek him out in his native land Disguising her true intent from her husband she secures his promise to help her in this undertaking Addressing an exclusively female audience Fiammetta warns them about the vicious ways of men Her whole narrative in fact adds up to an indictment of men as both readers and lovers Eliciting a remarkably wide range of responses from readers and critics Fiammetta has been variously described as a pathetic victim of male cruelty an irresponsible fool of a girl a sophisticated cunning and wholly disingenuous female and finally a genuinely modern woman Whatever judgment we make of her Fiammetta stands out among medieval women as an ardent and outspoken feminist *Arthurian Writers* Laura Lambdin, Robert Thomas Lambdin, 2007-11-30 King Arthur is perhaps the central figure of the medieval world and the lore of Camelot has captivated literary imaginations from the Middle Ages to the present Included in this volume are extended entries on more than 30 writers who incorporate Arthurian legend in their works Arranged chronologically the entries trace the pervasive influence of Arthurian lore on world literature across time Entries are written by expert contributors and discuss such writers as Geoffrey of Monmouth Boccaccio Chaucer Mark Twain John Steinbeck and Margaret Atwood Each entry provides biographical information a discussion of the author's use of Arthurian legend and contribution to the Arthurian literary tradition and a bibliography of primary and secondary material The volume begins with an introductory overview and concludes with suggestions for further reading The central figure of the medieval world King Arthur has captivated literary imaginations from the Middle Ages to the present This book includes extended entries on more than 30 writers in the Arthurian tradition Arranged chronologically and written by expert contributors the entries trace the pervasive influence of Arthurian legend from the Middle Ages to the present Each entry provides biographical information a discussion of the writer's use of Arthurian legend and contribution to the Arthurian literary tradition and a bibliography of primary and secondary material The volume begins with an introductory overview and closes with a discussion of Arthurian lore in art along with suggestions for further reading Students will gain a better understanding of the Middle Ages and the lasting significance of the medieval world on contemporary culture

Imagining the Woman Reader in the Age of Dante Elena Lombardi, 2018-05-11 *Imagining the Woman Reader in the Age of Dante* brings to light a new character in medieval literature that of the woman reader and interlocutor It does so by establishing a dialogue between literary studies gender studies the history of literacy and the material culture of the book in medieval times From Guittone d'Arezzo's piercing critic the villainous woman to the mysterious Lady who bids Guido Cavalcanti to write his grand philosophical song to Dante's female co-editors in the *Vita Nova* and his great characters of female readers such as Francesca and Beatrice in the *Comedy* all the way to Boccaccio's overtly female audience this particular interlocutor appears to be central to the construct of textuality and the construction of literary authority This volume explores the figure of the woman reader by contextualizing her within the history of female literacy the material

culture of the book and the ways in which writers and poets of earlier traditions imagined her It argues that these figures are not mere veneers between a male author and a real male readership but that although fictional they bring several advantages to their vernacular authors such as orality the mother tongue the recollection of the delights of early education literacy freedom in interpretation absence of teleology the beauties of ornamentation and amplification a reduced preoccupation with the fixity of the text the pleasure of making mistakes dialogue with the other the extension of desire original simplicity and new and more flexible forms of authority

The Image of Antiquity in Boccaccio's Filocolo, Filostrato, and Teseida James Harvey McGregor, 1991 This book argues that in three of his early vernacular romances Boccaccio working with descriptive language not with sketches or plastic imitations presented to his contemporaries for the first time a vast and persuasive picture of an essential aspect of Greek and Roman Antiquity the details of pre Christian religious practices Imitating literary works where the Romans described these practices Boccaccio represented the ritual and physical details of pagan worship with its temples cult images altars prayers and animal sacrifices Such detailing is the necessary prelude to the many acts of imitation of the Antique that so preoccupied the painters sculptors and decorative artists of the Renaissance In it lies the beginning of modern archaeology

Tradition and Ecstasy, 1997

The Genealogy of Women Stephen Kolsky, 2003 Composed in the 1360s Boccaccio's *De mulieribus claris* Famous Women was the first attempt at female biography in the history of post classical Western literature However its humanistic credentials coexist uneasily with the remnants of medieval misogyny This book the first full length study of *De mulieribus claris* in English argues that it is essential to take into account the ideological complexities of early humanism confronted with the woman question It seeks to unravel the difficulties of the text looking at its genesis sources relations to other writings including Boccaccio's vernacular works its political dimensions and its structure and methodology to shed light on Boccaccio the humanist rewriting and rethinking his previous attitudes toward women

Renaissance Et Réforme, 1991

The Figure in the Margins Nancy Lee Coiner, 1989

Policy in Love Christopher Martin, 1994 Policy in Love contributes to a new understanding of European love poetry Christopher Martin engages in close readings of three major texts Ovid's *Amores* Petrarch's *Canzoniere* and Shakespeare's *Sonnets* highlighting textual indications that these lyric poets are aware of a public audience for love poems that have often been characterized as primarily personal and private Martin explores the ways in which the poet negotiates the competing demands of intimacy and audience In contrast to traditional historical critics who stress authorial expressiveness and to reader response critics who highlight affective stylistics Martin's approach generates a theory of interpretation that accounts for the interaction of author and multiple audiences By fashioning this more comprehensive critical paradigm Martin raises numerous interpretive possibilities Among these is his revolutionary arguments that love lyrics are indeed public documents In accordance with this paradigm the speaker in a love lyric becomes a multifarious personality involved not only with examining self but also in addressing individual readers and interpretive communities of one's own era and

thereafter The impact of this methodological approach on our understanding of the tonal range and rhetorical versatility of love lyrics cannot be underestimated **Forum Italicum** ,1977 **Critical Matrix** ,1989 *Mediaevalia* ,2006
