## **Bodies Of Worship Explorations In Theory And Practice:**

Bodies of Worship Bernard J. Cooke, 1999 *Bodies of Worship* explores how the ecclesial ritual individual and cultural bodies engaged in the Church's worship contribute to the theory and practice of both liturgical theology and pastoral ministry. The authors bring solid historical and theoretical scholarship to bear on the practice and experience of the liturgy and spirituality of the Church.

**Practical Sacramental Theology** Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church? Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society? For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council's call to renew liturgy's basic purpose: namely, the glorification of God and the sanctification of people. Morrill's fundamental argument is that this ancient Christian principle is of a piece: that divine glory and human holiness are so to speak two sides of a single coin. The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives, personal and social. With numerous real-life examples plus references to current sociological studies, the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today.

**Transforming the Struggles of Tamars** Lina Andronoviene, 2014-05-29 This book explores the unprecedented challenge of involuntary singleness for women and the implications of disregarding this challenge for the Christian and particularly baptistic communities of faith. It argues that these communities not only fail involuntarily single women but also in so doing suffer a serious detriment to their own communal health and Christian witness. Taking the challenge of involuntary singleness as a test case, this book explores the method of convictional theology and argues for a holistic framework that can draw together the personal, communal, and visionary spheres of human existence. Although primarily a work of theological ethics, it also draws from a number of different disciplines, including cultural studies and sociology, as well as intersections of science and theology.

*Encountering Christ in the Eucharist* Bruce T. Morrill, 2012 If changes in the church's liturgical practice were the most obvious development of Vatican II to be noticed by the faithful in the pew, then inevitably shifts in eucharistic theology were not far behind. The previous focus on Christ's presence in the sacrament itself, under the species of bread and wine, and the attendant forms of worship that this spawned, have gradually yielded to deepening insights into the manifold ways in which Christ is present among the faithful. Drawing upon the best of recent biblical, historical, and theological sources, Bruce Morrill unfolds how the divine Spirit of Jesus works through ways Christ is present in the celebration of the Eucharist: in the assembly presiding, minister, biblical word, and ritual sacrament. Mindful of challenges inherent in eucharistic theologies within and among church traditions and communities, Morrill orients his theology on two key principles from Vatican II's Constitution on the Sacred Liturgy: the celebration of the liturgy as participation in the paschal mystery and the multiple, bodily symbolic ways Christ is

present in the ritual celebration In the process he sheds new light on such topics as sacrifice covenant divine presence and absence and the tradition s relationship to Judaism There are some challenging implications here not least to the modern tendency to think of liturgy in terms of a personal transaction what I got out of it and to those who hear God s word only according to their own preconceived ideas God s is not a reign limited to our personal histories Morrill points out but rather is one that calls us to hear our story as part of one much larger at times comforting at others confronting us Morrill eloquently invokes these human modes of Christ s presence to draw participants into the mystery of the cross and resurrection into communion with the God whose love for humanity has been revealed unto death making the Eucharist the source and summit for lives shaped in the pattern of Christ s justice and mercy for the life of the world **The Mystery We Celebrate, the Song We Sing** Kathleen Harmon,2016-11-18 Music and liturgy seem inseparable yet we seldom pause to ponder their relationship in depth In this volume Kathleen Harmon offers her own insights by creatively exploring the complex interplay between congregational singing and the liturgical celebration of the paschal mystery Harmon asserts that liturgical music in the form of communal singing is a vehicle through which the ritual reenactment of the paschal mystery is effected She addresses concrete and practical pastoral applications of the relationship between music and liturgy She focuses on how the liturgical singing of the assembly creates the collective consciousness of church as the Body of Christ Music then is much more than just a component of liturgy it is in Harmon s view absolutely constitutive both of liturgy s deepest essence and its fullest realization Professional music scholars graduate students music directors and anyone else seeking a sophisticated analysis of liturgical music will find this volume a rich sourcebook of new ideas Kathleen Harmon SNDdeN is the music director for programs of the Institute for Liturgical Ministry in Dayton Ohio and contributor to Living Liturgy Spirituality Celebration and Catechesis for Sundays and Solemnities an annual resource published by Liturgical Press She is also a columnist for Liturgical Ministry and serves as director of music for St Paul Parish in Englewood Ohio

*Sensing Sacred* Jennifer Baldwin,2016-08-30 Sensing Sacred is an edited volume that explores the critical intersection of religion and body through the religious lens of practical theology with an emphasis on sensation as the embodied means in which human beings know themselves others and the divine in the world The manuscript argues that all human interaction and practice including religious praxis engages body through at least one of the human senses touch smell hearing taste sight kinestics proprioception Unfortunately body and more specifically and ironically sensation is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas This is unfortunate because it neglects bodies physical or communal as the repository and generator of culturally conditioned ideas and theory It is ironic because all knowledge transmission minimally requires several senses including sight touch and hearing Sensing Sacred is organized into two parts The first section devotes a chapter to each human sense as an avenue of accessing religious experience while the second section explores religious practices as they specifically focus on one or more senses The overarching aim of the

volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice
