Bodies Out of Bounds Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of *Face Value The Politics of Beauty* Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of *The Most Beautiful Girl in the World Beauty Pageants and National Identity*

Contours of the Nation Deborah McPhail, 2017-10-31 The obesity epidemic that is said to plague nations around the world including Canada is not solely a medical condition to be managed In Canada the discourse on obesity emerged during a time of social upheaval in the postwar period *Contours of the Nation* is

the first book which historically explores obesity in Canada from a critical perspective Deborah McPhail demonstrates how obesity as a problem was affixed to particular populations in order to separate true Canadians from others She reveals how the articulation of obesity contributed to the Canadian colonial project in the North where Indigenous peoples were viewed as modern Canadians due to their obesity thereby negating any special claims to northern lands *Contours of the Nation* successfully demonstrates how histories can trace the actual materialization of bodies through relations of power particularly those pertaining to race gender and nation

Monstrous Textualities Anya Heise-von der Lippe, 2021-06-15 It brings together a range of critical approaches the Gothic monster theory critical posthumanism post structuralism postcolonialism feminist theory fat studies cyborg theory including very recent forays into posthumanist new materialist intersections It contributes new readings to the critical canon on a wide range of critically acclaimed texts from Mary Shelley's *Frankenstein* via Toni Morrison's and Angela Carter's work to Margaret Atwood's *MaddAddam* trilogy It explores narrative strategies of resistance against systemic cultural oppression and challenges a number of critical approaches in the process

Consuming the Body Dawn Woolley, 2022-09-08 *Consuming the Body* examines contemporary consumerism and the commodified construction of ideal gendered bodies paying particular attention to the new forms of interaction produced by social networking sites Describing the behaviours of an ideal neoliberal subject Woolley identifies modes of discipline forms of pleasure and opportunities for subversion in an examination of how individuals are addressed and the ways in which they are expected to respond Key modes of address that compel the consumer to consume are sadistic commands communicated in adverts TV programmes and magazine articles a fetishistic gaze that dissects the body into parts to be improved through commodification and a hystericized insistent presence that compels the consumer to present their body for critique and appreciation that is exemplified in the selfie Woolley interprets the visual characteristics of different types of selfies including fitspiration thinspiration fatspiration and bodypositivity to understand how they relate to current body ideals Healthism and culture bound illnesses such as hysteria and eating disorders are examined to demonstrate the impact of commodified body ideals on consumers bodies An analysis of thinspiration images photographs of emaciated bodies shared on pro eating disorder blogs and websites suggests that the anorexic body represents the logical and fatal end point for the idealised body in consumer culture Fat acceptance selfies suggest there is a fourth mode of address empowering presence that has the potential to liberate consumers from the trap of visibleness produced by the other three modes of address In conclusion the book identifies some creative methods for producing selfies that evade commoditisation and discipline

Queering Fat Embodiment Cat Pausé, Jackie Wykes, Samantha Murray, 2016-05-23 Cultural anxieties about fatness and the attendant stigmatisation of fat bodies have lent a medical authority and cultural legitimacy to what can be described as fat phobia Against the backdrop of the ever growing medicalisation pathologisation and commodification of fatness coupled with the moral panic over an alleged obesity epidemic this volume brings together the latest scholarship from various critical

disciplines to challenge existing ideas of fat and fat embodiment Shedding light on the ways in which fat embodiment is lived experienced regulated and re produced across a range of cultural sites and contexts Queering Fat Embodiment destabilises established ideas about fat bodies making explicit the intersectionality of fat identities and thereby countering the assertion that fat studies has in recent years reproduced a white ableist heteronormative subjectivity in its analyses A critical queer examination on fatness Queering Fat Embodiment will be of interest to scholars of cultural and queer theory sociology and media studies working on questions of embodiment stigmatisation and gender and sexuality

examination of fatness in the early modern period As Levy Navarro notes bodily perceptions have evolved that value the thin
body as they mark and stigmatize the fat one Using readings of such major figures as Shakespeare Jonson Middleton and
Skelton this book considers alternative ways that fat was constructed before the introduction of the modern pathologized
