Phenomenology and the Social Context of Psychiatry Magnus Englander, 2018-01-25 Exploring phenomenological philosophy as it relates to psychiatry and the social world this book establishes a common language between psychiatrists anti psychiatrists psychologists and social workers Phenomenology and the Social Context of Psychiatry is an inter disciplinary work by phenomenological philosophers psychiatrists and psychologists to discover the essence and foundations of social psychiatry Using the phenomenology of Husserl as a point of departure the meanings of empathy interpersonal understanding we intentionality ethics citizenship and social inclusion are investigated in relation to psychopathology nosology and clinical research This work drawing upon the rich classical and contemporary phenomenological tradition touching on a broad range of thinkers such as Deleuze Levinas and R D Laing also explicates how phenomenology is a method capable of capturing the human condition and its intricate relation to the social world and mental illness Journal of Phenomenological Psychology ,1990 Ecology of the Body Joseph Lyons, 1987 Ecology of the Body presents an argument for describing our behavior in accordance with the ways we experience our bodies Increasingly psychologists are recognizing that human beings show great diversity in the ways they perform the vast repertoire of human behaviors such as perceiving reasoning remembering forgetting that we may well possess not simply different levels of intelligence but also different forms of it in varying combinations just as we show differing degrees of emotion goal directed activity and creativity Lyons puts forward a hypothesis in which he argues for the utility of understanding these differences as stylistic variations that are inseparable from our physical experience of ourselves **Paths to the Personal** R. Melvin Keiser, 2024-03-29 In this age of electronic noise political antagonism and general discontent Paths to the Personal delivers to the spiritually hungry a delicious feast of peaceful promise Walter Gulick Professor Emeritus of Philosophy Humanities and Religious Studies Montana State University Billings Paths to the Personal Thinkers on the Way to Postcritical and Theopoetic Depths seeks to define and explore the dimension of the personal underlying all knowing doing being and religion Using a lens combining Michael Polanyi s postcritical and Stanley Hopper s theopoetic thought which carries the author into and beyond their explorative depths of the personal Keiser asks to what degree the personal is present in the thinking of Augustine Tillich H R Niebuhr Fritz Buri Freud Mircea Eliade Merleau Ponty William Poteat Hopper and Polanyi The immersive issues in these pages are how we know how words symbols metaphors myths and religious talk work contributions of philosophy to justice and peace making and the nature of religious thinking and being While not focused on Quaker thought and spirituality the

author's Quaker perspective undergirds these inquiries The Poetics of Embodiment Jed Rasula, 1989 **Studies in Formative Spirituality**, 1986 Review of Existential Psychology and Psychiatry, 1986 **Semiotica**, 1998 Bibliographic Guide to Psychology New York Public Library. Research Libraries, 1986 **Phenomenology + Pedagogy**, 1988 Corporal Compassion Ralph R. Acampora, 2006-07-10 Publisher Description Doing Educational Research Kenneth Tobin, 2006 The authors explore a variety of topics from methodologies such as ethnography action research hermeneutics historiography psychoanalysis literary criticism to issues such as social theory epistemology and paradigms Back cover JBSP British Society for Phenomenology, 1986 *The Body in Human Inquiry* Vicente Berdayes, Luigi Esposito, John W. Murphy, 2004 The human body has recently emerged as a central concept of social theory Social scientists philosophers and scholars in other disciplines now routinely argue that abstract concepts such as class and gender should be understood by examining how they are expressed in the body's everyday practices Such an approach has humanized social theory by emphasizing the role that concretely situated human beings play in acting out or redefining social norms How will this emphasis on human embodiment transform methods of social inquiry The volume takes up this question by examining how the recognition of human embodiment entails reworking standard models of social research Individual chapters focus on such topics as communication theory ethics policy science globalization and cultural changes gerontology and pedagogical practice Undisciplined Theory Gary Genosko, 1998-06-18 In this work the author argues that whilst institutionalized social theory persists in following a rigid canon and supporting clear visions the vital questions in theory are interdisciplinary **Embodied Enquiry** Les Todres, 2007-07-31 Drawing on a particular emphasis within the phenomenological tradition as exemplified by Maurice Merleau Ponty and Eugene Gendlin this book considers the role of the lived body as a way of knowing and being The author a psychologist psychotherapist and qualitative researcher pursues this theme within three practical contexts that illustrate some of the nuances of embodied enquiry qualitative research psychotherapy spirituality The three sections of the book also provide examples of how embodied enquiry is not just a philosophical perspective but also a practice with very tangible implications for research psychotherapy and spirituality **Mind**, 1985 Includes papers of the Aristotelian Society 1896 1900 **Transforming Corrections** David Polizzi, Michael Braswell, 2009 This book is part of the Criminal Justice and Psychology Series Transforming Corrections offers an alternative perspective not easily found in the existing literature concerning the way in which individuals in the criminal justice system are understood and treated by those responsible for their care Intended as a supplementary text this collection will help to enhance the current conversation that is ongoing in the field of rehabilitative corrections The wide reaching focus of this collection is intended to provide a variety of alternative perspectives related to issues of theory correctional practice and offender treatment As such Transforming Corrections could be adopted in introductory courses in criminology and criminal justice as well as graduate courses more specifically focused on issues related to offender treatment and correctional administration A book subtitled Humanistic

Approaches to Corrections and Offender Treatment manifestly does not mirror prevailing practices in corrections nor reflect the dominant ethos of the times Such a book instead gives some of us heady sustenance and support in the goals that we secretly aspire to it gives us a sense of what might be achieved in the distant future and what might already have been accomplished The book is an invitation for us to hang in there and persevere If you are not quite burned out have not given up and are still fighting the odds the message of these chapters is you are not nearly as alone as you sometimes feel out there on your limb The reassuring fact is that there are enclaves of humanistic activity in correctional settings and as these experiments demonstrate their effectiveness they are bound to ensure the long term survival of the approach Hans Toch University at Albany SUNY from the Preface It is regrettable that a collection such as this is necessary in order to encourage those who wish to treat prisoners as human beings For this reason alone the book deserves a place in every library Summing Up Recommended Upper division undergraduates and above CHOICE Magazine
