**The Body Hunters** Sonia Shah, 2012-03-13 Hailed by John le Carr as an act of courage on the part of its author and singled out for praise by the leading medical journals in the United States and the United Kingdom *The Body Hunters* uncovers the real life story behind le Carr's acclaimed novel *The Constant Gardener* and the feature film based on it. A trenchant exposé meticulously researched and packed with documentary evidence Publishers Weekly Sonia Shah's riveting journalistic account shines a much needed spotlight on a disturbing new global trend. Drawing on years of original research and reporting in Africa and Asia Shah examines how the multinational pharmaceutical industry in its quest to develop lucrative drugs has begun exporting its clinical research trials to the developing world where ethical oversight is minimal and desperate patients abound. As the *New England Journal of Medicine* notes it is critical that those engaged in drug development clinical research and its oversight research ethics and policy know about these stories which tell of an impossible choice being faced by many of the world's poorest patients be experimented upon or die for lack of medicine.

Positive I.D. Kathleen Long, 2008 Seventeen years after he faked his death to keep his family safe from a sadistic criminal agent Will Conner is forced to reunite with his widow when that same criminal kidnaps his teenage daughter. The Body Hunters Raven Newcastle, 2013-11 The exciting third chapter of *The Body Hunters* series *Dirty Secrets Naked Truths* finds Danielle Labouleaux's private detective agency recruited to solve the shocking murder of indicted Wall Street Ponzi artist Alistair Brogan. Found shot dead inside his lavish Savannah mansion his spirit now cries out for vengeance. With a laundry list of potential suspects from spurned ex-wives to duped investors it will take all their psychic skills to solve the case as new challenges arise to complicate their investigation. Working closely with her is Aiden Stone. Their fiery chemistry is once again threatening to ignite a myriad of emotions from heated passion to tempestuous jealousy. Can they put aside their personal troubles and work together? This third entry in *The Body Hunters* series has all of the twists turns and drama you've come to expect from author Raven Newcastle. The Experiment Must Continue Melissa Graboyes, 2015-11-09 *The Experiment Must Continue* is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014. In it Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian. She breathes life into the fascinating histories of research on human subjects elucidating the hopes of the interventionists and the experiences of the putative beneficiaries. Historical case studies highlight failed attempts to eliminate tropical diseases while modern examples delve into ongoing malaria and HIV/AIDS research. Collectively these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form. By writing an ethnography of the past and a history of the present Graboyes casts medical experimentation in a new light and makes the resounding case that we must readjust our dominant ideas of consent participation and exploitation. With global implications this lively book is as relevant for scholars as

it is for anyone invested in the place of medicine in society *Breathing Free* S. E.  Glen, Timothy L. Fort, 2021-12-21 Business schools are placing more emphasis on the role of business in society Top business school accreditors are shifting to mandating that schools teach their students about the social impact of business including AACSB standards to require the incorporation of business impact on society into all elements of accredited institutions Researchers are also increasingly focused on issues related to sustainability but in particular to business and peace as a field A strong strain of scholarship argues that ethics is nurtured by emotions and through aesthetic quests for moral excellence The arts and music as shown specifically in this book can be a resource to nudge positive emotions in the direction toward ethical behavior and logically then toward peace Business provides a model for positive interactions that not only foster long term successful business but also incrementally influences society This book provides an opportunity for integration and recognition of how music and other art forms can further encourage business toward the direction of peace while business provides a platform for the dissemination and modeling of the positive capabilities of music toward the aims of peace in the world today The primary market for this book is the academic audience Unlike many other academic books however the interdisciplinary nature of the book allows for multiple academic audiences Thus this book reaches into schools of music business political science film studies sports and society studies the humanities ethics and of course peace studies
