Body Language: How to Write Kinesics, Gestures and Nonverbal Emotions (A Simple Guide to Mastering Body Language and Nonverbal Communication) David Howard,101-01-01 Body language also known as non verbal communication is how we express ourselves through gestures expressions posture tone eye contact pace of speech and so much more If you have ever heard the expression actions speak louder than words you have heard a universal truth The actions our body takes without our even thinking about it are very telling indeed and this is precisely why we need to understand what it is and how we can use it to our benefit Understanding how to read and give non verbal cues is an important part of communication We do it automatically without even knowing that we are so understanding is the key word Still if you want to master body language in order to manipulate others you will likely be unsuccessful in the least and mistrusted in the end Inside you ll learn how to Describe emotional states through posture facial expression and gesture Use kinesics to reveal tension attraction power deception and more Avoid common clic s and write vivid original character behavior Master cultural differences in body language to write international characters Build subtext and conflict through incongruent actions and dialogue Understand personal space microexpressions mirroring and territorial displays Craft compelling greetings goodbyes reactions and physical cues Instantly access vocabulary tables of gesture types and emotional cues Through unflinching real world scenarios and psychological insight he shows how violence actually moves through people how responsibility grows with skill and why the most dangerous fight is often the one you never realized you were entering This book is for readers who want clarity instead of bravado restraint instead of escalation and the ability to walk away without needing to prove anything Because the street is a brutal teacher
