Body Community Language World:

Body, Community, Language, World Jan Patočka, 1998 Body Community Language World here made available in English for the first time is Patočka's presentation of phenomenology as a living tradition as a philosophical heritage that requires to be rethought and redirected in light of possibilities that it has itself uncovered Jan Patočka lived for most of his adult life in Communist Czechoslovakia where he was at times banned from publishing or teaching Mentor of Vaclav Havel Patočka defied the regime as one of the spokespersons for Charta 77 and died in 1977 following two months of police interrogation

Caring for the Soul in a Postmodern Age Edward F. Findlay, 2012-02-01 In 1977 the sixty nine year old Czech philosopher Jan Patočka died from a brain hemorrhage following a series of interrogations by the Czechoslovak secret police A student of Husserl and Heidegger he had been arrested along with young playwright Vclav Havel for publicly opposing the hypocrisy of the Czechoslovak Communist regime Patočka had dedicated himself as a philosopher to laying the groundwork of what he termed a life in truth This book analyzes Patočka's philosophy and political thought and illuminates the synthesis in his work of Socratic philosophy and its injunction to care for the soul In bridging the gap not only between Husserl and Heidegger but also between postmodern and ancient philosophy Patočka presents a model of democratic politics that is ethical without being metaphysical and transcendental without being foundational

The Heresies of Jan Patočka James Dodd, 2023-03-15 A nuanced reflection on the meaning and resonance of Patočka's philosophy Foregrounding the turbulent political and intellectual scene in Czechoslovakia following the Prague Spring in 1968 James Dodd explores the unity of philosophy history and politics in Jan Patočka's life and legacy Dodd presents Patočka as an essential philosopher of modern concepts such as freedom subjectivity and history and also as an interpreter of prominent thinkers such as Husserl and Heidegger Dodd outlines the phenomenology that Patočka as a late pupil of Husserl and Heidegger crafted in response to the classical model before turning to his philosophy of history which was oriented around the problem of Europe and the care for the soul Finally Dodd examines Patočka's role as a dissident intellectual and one of the principal voices of the Charter 77 human rights movement until his death in March 1977 By situating Patočka's thought in relation to classical phenomenology and to the political and historical conditions of Central Europe Dodd illuminates the enduring impact of this key thinker of the twentieth century

In Marx's Shadow Costica Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses

and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989

Acta ,1987 **The Philosophy and Politics of Czech Dissidence from Patočka to Havel** Aviezer Tucker,2000 A critical study of the philosophy and political practice of the Czech dissident movement Charter 77 Aviezer Tucker examines how the political philosophy of Jan Patočka 1907 1977 founder of Charter 77 influenced the thinking and political leadership of Vaclav Havel as dissident and president Presents the first serious treatment of Havel as philosopher and Patočka as a political thinker Through the Charter 77 dissident movement in Czechoslovakia opponents of communism based their civil struggle for human rights on philosophic foundations and members of the Charter 77 later led the Velvet Revolution After Patočka s self sacrifice in 1977 Vaclav Havel emerged a strong philosophical and political force and he continued to apply Patočka s philosophy in order to understand the human condition under late communism and the meaning of dissidence However the political philosophical orientation of the Charter 77 movement failed to provide President Havel with an adequate basis for comprehending and responding to the extraordinary political and economic problems of the postcommunist period In his discussion of Havel s presidency and the eventual corruption of the Velvet Revolution Tucker

demonstrates that the weaknesses in Charter 77 member s understanding of modernity which did not matter while they were dissidents seriously harmed their ability to function in a modern democratic system Within this context Tucker also examines Havel s recent attempt to topple the democratic but corrupt government in 1997 1998 The Philosophy and Politics of Czech Dissidence from Patocka to Havel will be of interest to students of philosophy and politics scholars and students of Slavic studies and historians as well as anyone fascinated by the nature of dissidence
