Body Metaphors Releasing God Feminine In Us All:

Body Metaphors ,1988 **Metaphor II** Jean-Pierre Noppen,Edith Hols,1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles *Metaphor An Annotated Bibliography and History* Bloomington Ind 1971 recorded the initial interest Then *Metaphor A Bibliography of Post 1970 Publications* published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking and tendencies in the field This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe *Metaphor II* systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information

Gender and the Language of Religion A. Jule,2005-07-31 This book contributes to an understanding of the complex relationship of gender and language alongside religion and religious life as experienced by various religious groups around the world The intention is to put forward current studies in the field of linguistics and explore how gender and various religions intersect with language use The universal and diverse experience of religion provides for this unique collection of papers concerning the use of language in religious liturgy in religious communities and in interaction with identity As such the book will attract students and researchers in discourse gender studies and religious studies Tending Inner Gardens Lesley I Shore,2014-01-21 *Tending Inner Gardens The Healing Art of Feminist Psychotherapy* transforms the theory and practice of psychotherapy one that values both the feminine and masculine perspectives Set within a naturalistic framework this model utilizes nature s growing and healing processes It proposes nature s seasonal cycles as a model for the psychotherapy process and author Lesley Irene Shore introduces nature s seasonal cycle as a model for successful psychotherapy and demonstrates how to tune techniques to the rhythms of each season Dr Shore speaks with the voice of an experienced psychotherapist sharing her struggles with therapeutic dilemmas and addressing issues common to every practitioner She refuses to present simple solutions to the difficult process of helping people grow yet offers new ways of thinking about this work Readers will find this a healing book for themselves as well as for their clients The book covers relationship issues as well as the use of language hypnosis dreams and creativity Specific areas readers learn about include language teaches therapists to differentiate between questions that address conscious regions of the mind and ones which communicate with less conscious processes metaphor describes ways of working with metaphors to access less conscious processes trauma explores the effects of psychological trauma and offers tools for healing its wounds psychotherapy process

uses nature's seasonal cycle to chart the process of psychotherapy. Tending Inner Gardens transcends the artificial dichotomies currently characterizing much psychological thought. Psychotherapists will be interested in the natural model of psychotherapy which integrates a wide range of ideas and theories especially the sections on the psychotherapy relationship, dreams, creativity, working with metaphors, language and the process of psychotherapy. Interesting case studies illuminate this material. Students can benefit from seeing how the tools of psychotherapy are integrated with the art. Laypeople will enjoy reading about Dr. Shore's personal evolution as a therapist, her life on Harmony Farm and her cases which are discussed in detail. While this book is primarily geared toward a professional audience, it attracts a wide range of readers. It should be read by experienced psychotherapists, faculty members and practitioners as well as those in training. This would generally include psychiatrists, psychologists, social workers, counselors, psychiatric nurses and related professions. And while the book presents a primarily verbal psychodynamic approach toward healing, its theoretical conceptualization will appeal to professionals in healing traditions such as art therapy, massage therapy and expressive therapy.

Lesbians and Lesbianisms Claudette Kulkarni, 2012-11-12 Claudette Kulkarni explores lesbian experience from a Jungian and feminist perspective through interviews with women who see themselves as lesbians or who are in a lesbian relationship. Although a feminist treatment of the subject challenges the heterosexism of Jungian theory, the author presents a link between theory and experience that is consistent with both approaches. She concludes that when a woman finds herself loving another woman, she is often responding to a profound psychological instinct to act in spite of internal conflict or external opposition and that this is a significant move in the service of personal and collective individuation and a movement toward achieving self-understanding.

Transformation Through Menopause Marian Van Eyk McCain, 1991-09-30 This is by far the most wise and thought-provoking book on menopause that I have ever read. It is must-reading for every woman who dares to meet the challenges of menopause fully and consciously. Christiane Northrup, M.D. This volume presents a holistic theoretical framework for understanding menopause as a major developmental event in women's lives. Rather than an unpleasant phase to be endured or alleviated, Marian Van Eyk McCain views menopause as an empowering experience that women can use for personal growth. Artfully interweaving her research, years of clinical experience and her personal perceptions of menopause to create an inspiring new vision of the change of life, she goes well beyond a discussion of hormones and hot flashes to uncover the deep emotional and spiritual significance of this time in women's lives. This book is not only about change on a personal or physical level but in society as well. McCain lays out historical and cross-cultural beliefs about menstruation and menopause and the attitudes surrounding them, from taboos to reverence, and points out that in our modern society women most often either try to ignore or make it through this essential period of womanhood in order to compete in a man's world on male terms. In tune with recent feminist thought, the author says there is a new womanpower emerging, which means that it is time for women to honor their natural cycles. There is no other book that combines the insights, inspiration and wealth of

information contained in this work It is an important book for the alternative minded baby boom generation who are seeking new ways to approach middle age **Women of the 14th Moon** Dena Taylor, Amber Coverdale Sumrall, 1991 A rich anthology of essays poems and fantasies on the many meanings of menopause physical emotional spiritual and communal

Uniting Sex, Self & Spirit, 1993 **Parapsychology, New Age, and the Occult**, 1993 **Healing the Feminine** Lesley Irene Shore, 1995 Chronicles the struggles and triumphs of a psychologist and her clients on their journeys to self discovery and wholeness Tracing much of women s distress to society s devaluation of the feminine this book illustrates the need for both men and women to reclaim their hidden feminine aspects **Maiden, Mother, Crone** Audrius Vilius Dundzila, 1991 **Goddesses & Wise Women** Anne Carson, 1992 *New Books on Women and Feminism*, 1988

Superwoman's Rite of Passage Kathleen F. Lundquist, 1996 Midlife transition is uniquely challenging to the Superwoman because her success has come too often at the expense of her feminine psyche This workbook for high achieving women who are entering midlife and want to emerge whole and renewed examines how women can reconnect with their feminine psyche and achieve wholeness **The Moral Vision of Dorothy Day** June O'Connor, 1991 Discusses her life and work and the effect that her experience as a woman had on her leadership of a mostly male organization *Studies in Formative*

Spirituality, 1989 **To be a Woman** Connie Zweig, 1990 In this ground breaking collection psychologists Jungian analysts feminists and scholars of Goddess cultures explain for the first time that a new state in women s growth is about to emerge conscious femininity Feminist Studies, 1988 *Squaring the Circle* Stacey Dolgin Casado, 2002 **Life as a Waking Dream** Diane Kennedy Pike, 1997 The traditional method of dream interpretation involves identifying the elements and themes making significant associations and then deciphering the disguised messages Pike has spent the last ten years developing her waking dream theory Now with the help of the stories from dream group participants she reveals how this technique has been adapted to help those who cannot remember their dreams tap into the wisdom and insight of dream analysis
