## **Body And Image Space:**

*Body-and Image-space* Sigrid Weigel,1996 The last decade has seen a new wave of interest in philosophical and theoretical circles in the writings of Walter Benjamin In *Body and Image Space* Sigrid Weigel one of Germany's leading feminist theorists and a renowned commentator on the work of Walter Benjamin argues that the reception of his work has so far overlooked a crucial aspect of his thought his use of images Weigel shows that it is precisely his practice of thinking in images that holds the key to understanding the full complexity richness and topicality of Benjamin's theory [Body-and Image-Space](#) Sigrid Weigel,2003-12-16 Assembled here for the first time in English translation Sigrid Weigel offers illuminating new insights into Benjamin's theory combining impulses from post structuralism feminism cultural anthropology and psychoanalysis [Film Consciousness](#) Spencer Shaw,2015-03-10 The notion of film consciousness is one that has played around various film and philosophical discourses without ever really surfacing as a cogent theory Representing the first major expression of film consciousness as a tangible concept this critical study revisits notions of memory retentional consciousness narrative expectation and spatio temporal perception while also analyzing several major films The first half of the book focuses on understanding the elements of the film experience and its associated consciousness through the descriptive tools of phenomenology The second part develops the idea of film consciousness as a unique vision of the world and as a large element in the human understanding of reality Throughout the work the author combines the ideas of philosophers and film theorists from phenomenology such as Husserl Merleau Ponty Bazin and Kracauer with the postmodernist work of Deleuze and transitional theorists Bergson and Benjamin [The Marriage of Sense and Thought](#) Stephen Edelglass,Georg Maier,Hans Gebert,John Davy,2011-09 Perception of the idea within the actual is the true communion of the human being Goethe Religious ritual is often seen as a way of bringing divine influences down into the material world In this profound and stimulating work Rudolf Steiner and Friedrich Benesch introduce the idea of reverse ritual a way that each of us can raise our souls to the spiritual realm In this process the everyday world becomes a portal through which we can enter the dimension of the sacred Here each of us can be a priest and each of our actions can be a cosmic ritual act This stimulating collection of writings on spiritual communion of humanity includes two further lectures by Steiner that show how this process can engage our social lives Also included are two additional essays as appendices [Sacramental and Spiritual Communion](#) by Dietrich Asten and [Human Encounters and Karma](#) by Athys Floride The introduction by Christopher Schaefer brings these ideas into focus for modern seekers [Spatial Resistance](#) Christian Beck,2019-01-11 *Spatial Resistance* Literary and Digital Challenges to Neoliberalism utilizes various literary and digital artifacts to show the potential and possibility of changing the ways we consider the spaces we inhabit As many spaces become increasingly privatized and policed it is necessary to contemplate ways in which corporate and state controlled spaces can not only be subverted but fundamentally changed to embrace the diverse lived experiences of all peoples Through

an analysis of fictional and virtual spaces readers will be able to identify new ways to institute spatial change in everyday spatial lives in an effort to promote more democratic and equal experiences While this book uses primarily the philosophy of Gilles Deleuze and Félix Guattari to engender change it also provides practical examples to amend change or update the actions to suit particular needs and spaces This book shows that radical politics and the possibility of significant change can reside in just about any object or narrative it is the responsibility of the individual to take up the task of creating social change premised on equality liberty and solidarity

**The Event and Its Terrors** Stuart John McLean, 2004 The Event and its Terrors undertakes a critical reimagining of one of the major events of Irish history the Great Famine of the 1840s and of its subsequent legacies Drawing on a wide range of sources past and present it considers the emergence of the Famine as an object of historical knowledge and controversy with reference both to the experience of modernity and to the production of academic and nationalist histories in colonial and post independence Ireland In doing so it explores the possibility of alternative modes of engagement with the
