A Bohemian Brigade James M. Perry,2000-03-27 Focusing on a self proclaimed bohemian brigade of Civil War journalists this volume considers the nature of combat correspondence Perry describes how competition drove journalists to file stories prematurely sometimes erroneously predicting the outcome of battles He also considers army commanders distrust of war correspondents in spite of their sometimes important contributions

Lincoln's Informer Carl J. Guarneri,2023-03-17 In a recent poll of leading historians Charles A Dana was named among the Twenty Five Most Influential Civil War Figures You ve Probably Never Heard Of If you have heard of Dana it was probably from his classic *Recollections of the Civil War* 1898 which was ghostwritten by muckraker Ida Tarbell and riddled with errors cited by unsuspecting historians ever since *Lincoln s Informer* at long last sets the record straight giving Charles A Dana his due in a story that rivals the best historical fiction Dana didn t just record history Carl J Guarneri notes he made it Starting out as managing editor of Horace Greeley s *New York Tribune* he led the newspaper s charge against proslavery forces in Congress and the Kansas territory When his criticism of the Union s prosecution of the war became too much for Greeley Dana was drafted by Secretary of War Edwin Stanton to be a special agent and it was in this capacity that he truly made his mark Drawing on Dana s reports letters and telegrams the most remarkable interesting and instructive collection of official documents relating to the Rebellion according to the custodian of the Union war records Guarneri reconstructs the Civil War as Dana experienced and observed it as a journalist a confidential informant to Stanton and Lincoln and most controversially an administration insider with surprising influence While reporting most of the war s major events Dana also had a hand in military investigations the cotton trade Lincoln s reelection passage of the Thirteenth Amendment and most notably the making of Ulysses S Grant and the breaking of other generals Dana s reporting and Guarneri s lively narrative provide fresh impressions of Lincoln Stanton Grant and other Union war leaders *Lincoln s Informer* shows us the unlikely role of a little

known confidant and informant in the Lincoln administration's military and political successes. A remarkable inside look at history unfolding, this book draws the first complete picture of a fascinating character writing his chapter in the story of the Civil War. Forgotten Firebrand John R. McKivigan, 2018-07-05. The reformer James Redpath (1833-1891) was a focal figure in many of the key developments in nineteenth-century American political and cultural life. He befriended John Brown, Samuel Clemens, and Henry George, and toward the end of his life was a ghostwriter for Jefferson Davis. He advocated for abolition, civil rights, Irish nationalism, women's suffrage, and labor unions. In Forgotten Firebrand, the first full-length biography of this fascinating American, John R. McKivigan portrays the many facets of Redpath's life, including his stint as a reporter for the *New York Tribune*, his involvement with the Haitian emigration movement, and his time as a Civil War correspondent. Examining Redpath's varied career enables McKivigan to cast light on the history of journalism, public speaking, and mass entertainment in the United States. Redpath's newspaper writing is credited with popularizing the stenographic interview in the American press, and he can be studied as a prototype for later generations of newspaper writers who blended reportage with participation in reform movements. His influential biography of John Brown justified the use of violent actions in the service of abolitionism. Redpath was an important figure in the emerging professional entertainment industry in this country. Along with his friend P. T. Barnum, Redpath popularized the figure of the impresario in American culture. Redpath's unique combination of interests and talents for politics, journalism, public relations, and entrepreneurship brought an entrepreneurial spirit to reform that blurred traditional lines between business and social activism and helped forge modern concepts of celebrity.

Reporting the Civil War Louis Morris Starr, 1962. The Press in Times of Crisis Lloyd E. Chiasson, 1995-09-30. Throughout American history, the press has been incredibly adept at making the public aware. The history of the press in crisis situations is in many ways the story of public attitudes and the story of America. This book looks at the press over time and the way it has functioned in times of crisis. It considers press coverage of 13 events spanning a time frame that includes the birth of the nation, its political, economic, and social struggles as a young country, and its Civil War. It tells how a young agrarian society grew into an industrial giant and how it changed from isolationist to a world power. It relates how this country coped with the growth of socialism, two world wars, civil unrest, and with the problem of world overpopulation. The American press has performed various functions throughout the years. The Colonial Press served as a vehicle of discussion, debate, and finally agitation, and in the process may have defined itself and laid a groundwork for the press's future roles. The press has agitated, advocated, and persuaded. It has been duped, it has been unfair, and it has misled. This volume considers such concepts as advocacy journalism, a central theme of the chapters on abolitionists and David Duke, and social responsibility, a primary part of the chapter on Japanese American internment. The press's attempt to lead public opinion is the focus of the chapters on the partisan press, the antebellum period, and the first Red Scare in 1919. The chapter on Joseph McCarthy looks at the concepts of objectivity and the use and misuse of pseudo news. The final chapter on overpopulation

deals extensively with agenda setting **Perspectives on Mass Communication History** Wm. David Sloan, 2013-11-05 This unique volume is based on the philosophy that the teaching of history should emphasize critical thinking and attempt to involve the student intellectually rather than simply provide names dates and places to memorize The book approaches history not as a cut and dried recitation of a collection of facts but as multifaceted discipline In examining the various perspectives historians have provided the author brings a vitality to the study of history that students normally do not gain The text is comprised of 24 historiographical essays each of which discusses the major interpretations of a significant topic in mass communication history Students are challenged to evaluate each approach critically and to develop their own explanations As a textbook designed specifically for use in graduate level communication history courses it should serve as a stimulating pedagogical tool

The Press Geneva Overholser, Kathleen Hall Jamieson, 2005-05-26 With the guidance of editors Geneva Overholser and Kathleen Hall Jamieson this superb collection of essays written by the nation's leading authorities on journalism illuminates the role of the press in a democracy investigating alternative models used throughout world history to better understand how the American press has evolved into what it is today The book also examines the history identity roles and future of the American press with an emphasis on topics of concern to both practitioners and consumers of American media
