Hazel Van Dyke Roberts,1935 *Boisguilbert* Hazel Van Dyke Roberts,1971 **Opposition to Louis XIV** Lionel Rothkrug,2015-12-08 In tracing the history of the anti mercantilist movement the author shows that many of the ideas and attitudes associated with eighteenth century philosophes were first formulated in the anti mercantilist criticism Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

A Bibliography of Female Economic Thought to 1940 Kirsten Kara Madden,Janet A. Seiz,Michèle A. Pujol,2004 Contains references to over 10 000 articles books and pamphlets on economic issues written by more than 1 700 women published between 1770 and 1940 Introduction A Bibliography of Female Economic Thought up to 1940 Kirsten Madden,Michele Pujol,Janet Seiz,2004-03-01 Contributions to female economic thought have come from prolific scholars leading social reformers economic journalists and government officials along with many other women who contributed only one or two works to the field It is perhaps for this reason that a comprehensive bibliographic collection has failed to appear until now This innovative book brings together the most comprehensive collection to date of references to women s economic writing from the 1770s to 1940 It includes thousands of contributions from more than 1 700 women from the UK the US and many other countries This bibliography is an important reference work for systematic inquiry into questions of gender and the history of economic thought This volume is a valuable resource and will interest researchers on women s contributions to economic thought the sociology of economics and the lives of female social scientists and activist authors With a comprehensive editorial introduction it fills a long standing gap and will be greeted warmly by scholars of the history of economic thought and those involved in feminist economics

and Empire in the Eighteenth-century Atlantic World Andrew Hamilton, 2008 Free trade has become a highly politicized term but its origins historical context and application to policy decisions have been largely overlooked This book examines the relationship between liberal political economy and the changing conception of empire in the eighteenth century investigating how the doctrine of laissez faire economics influenced politicians charged with restructuring the transatlantic relationship between Britain and the newly independent America As prime minister during the peace negotiations to end the American Revolution in 1782 Lord Shelburne understood that the British Empire had to be radically reconceived Informed by the economic philosophies of Adam Smith he envisioned a new commercial empire based upon trade instead of the archaic model of territorial conquests Negotiations between Shelburne and the American statesmen Benjamin Franklin and John Adams demonstrate the application of Smith's commercial theories to the British American peace settlement By tracing the genealogy of laissez faire this book locates the historical background from which modern ideas of free trade empire and cosmopolitanism emerged Benjamin Vaughan confidential secretary to Shelburne during the peace talks is established as an important historical figure and his treatise *New and Old Principles of Trade Compared* 1788 is identified as a significant contribution to the literature of political economy An interdisciplinary study integrating history economics and philosophy **Trade and Empire** offers a new perspective on the intellectual history of the eighteenth century Atlantic world

The Light of Nature J.D. North, J.J. Roche, 2012-12-06 This volume of essays is meant as a tribute to Alistair Crombie by some of those who have studied with him The occasion of its publication is his seven tieth birthday 4 November 1985 Its contents are a reflection or so it is hoped of his own interests and they indicate at the same time his influence on subjects he has pursued for some forty years Born in Brisbane Australia Alistair Cameron Crombie took a first degree in zoology at the University of Melbourne in 1938 after which he moved to Jesus College Cambridge There he took a doctorate in the same subject with a dissertation on population dynamics foreshadowing a later interest in the history of Darwinism in 1942 By this time he had taken up a research position with the Ministry of Agriculture and Fisheries in the Cambridge Zoological Laboratory a position he left in 1946 when he moved to a lectureship in the history and philosophy of science at University College London H G Andrewartha and L C Birch in a survey of the history of insect ecology R F Smith et al *History of Entomology* 1973 recognise the importance of the works of Crombie with which they couple the earlier work of Gause as the principal stimulus for the great interest taken in interspecific competition in the mid 1940s

Pre-classical Economists: John Law (1671-1729) and Bernard Mandeville (1660-1733) Mark Blaug, 1991 John Law was one of those extraordinary personalities in which the 18th century seemed to abound He held a demand and supply theory of value and treated the value of money or the determination of the average level of prices as only a special case of a general theory of value Law eventually became Minister of Finance in France and was responsible for the greatest speculative frenzy in her history known as the Mississippi Bubble When the boom collapsed in the closing months of 1720 Law was forced to flee France permanently

discredited and spent his declining years as a professional gambler in Venice In *The Fable of the Bees* Private Vices Public Benefits Bernard Mandeville argued that self interest was a moral vice Mandeville s satire was deliberately designed to give offence as if to encourage the re examination of traditional beliefs conspicuous consumption of luxury goods the fashionable display of foreign imports crime and even natural disasters like the Fire of London all promote the division of labour Mandeville s term and contribute to a brisk trade and fall in unemployment whereas such supposed virtues as thrift and charity contribute to poverty and stagnation *The Fable of the Bees* was widely read in the 18th century and criticized by all the leading thinkers of the day

The Foreign Quarterly Review, 1873 *The Westminster Review*, 1873 **The Cambridge Economic History of Europe from the Decline of the Roman Empire: The economy of expanding Europe in the sixteenth and seventeenth centuries** Sir John Harold Clapham, Eileen Power, 1967 **The Westminster review [afterw.] The London and Westminster review [afterw.] The Westminster review [afterw.] The Westminster and foreign quarterly review [afterw.] The Westminster review [ed. by sir J. Bowring and other].** sir John Bowring, 1873 *An Austrian Perspective on the History of Economic Thought: Economic thought before Adam Smith* Murray Newton Rothbard, 1995 This is the first extensive treatment from a modern Austrian perspective of the history of economic thought up to Adam Smith and as such takes into account the profound influence of religious social and political thought upon economics In *Economic Thought before Adam Smith* Murray Rothbard contends that laissez faire liberalism and economic thought itself began with the Catholic scholastics and early Roman and canon law rather than with Adam Smith The scholastics he argues established and developed the subjective utility and scarcity theory of value as well as the theory that prices or the value of money depend on its supply and demand This continental or pre Austrian tradition was destroyed rather than developed by Adam Smith whose strong Calvinist tendencies towards glorifying labour toil and thrift is contrasted with the emphasis in Scholastic economic thought towards labour in the service of consumption Tracing economic thought from the Greeks to the Scottish Enlightenment this book is notable for its inclusion of all the important figures in each school of thought with their theories assessed in historical context *Classical Economics* the second volume of Professor Rothbard s history of economic thought from an Austrian perspective is also available *An Introduction to French Literature of the Seventeenth Century* Charles Rutherford Bagley, 1937 **Economica**, 1938 **Competition in the History of Economic Thought** Kenneth G.
