It takes the confusion out of the concept of leadership and introduces quick, easily applicable, and proven leadership concepts that today's leaders can employ. Moving through cinematic history decade by decade since 1910, this important volume explores the appropriation, exploitation, and agency of black performers in Hollywood by looking at the black actors, directors, and producers who have shaped the image of African American males in film. To determine how these archetypes differentiate African American males in the public's subconscious, the book asks probing questions, for example, whether these images are a reflection of society's fears or realistic depictions of a pluralistic America. Even as the work acknowledges the controversial history of black representation in film, it also celebrates the success stories of blacks in the industry. It shows how blacks in Hollywood manipulate degrading stereotypes, gain control, advance their careers, and earn money while making social statements or bringing about changes in culture. It

discusses how social activist performers such as Paul Robeson Sidney Poitier Harry Belafonte and Spike Lee reflect political and social movements in their movies and it reviews the interactions between black actors and their white counterparts to analyze how black males express their heritage individual identity and social issues through film **Celebrate Your Uniqueness: "LADY!
