Bomb By Eubank:

December 8, 1941 William H. Bartsch, 2012-08-13 Ten hours after the attack on Pearl Harbor another Pearl Harbor of even more devastating consequence for American arms occurred in the Philippines 4 500 miles to the west On December 8 1941 at 12 35 p m 196 Japanese Navy bombers and fighters crippled the largest force of B 17 four engine bombers outside the United States and also decimated their protective P 40 interceptors The sudden blow allowed the Japanese to rule the skies over the Philippines removing the only effective barrier that stood between them and their conquest of Southeast Asia This event has been called one of the blackest days in American military history How could the army commander in the Philippines the renowned Lt Gen Douglas MacArthur have been caught with all his planes on the ground when he had been alerted in the small hours of that morning of the Pearl Harbor attack and warned of the likelihood of a Japanese strike on his forces In this book author William H Bartsch attempts to answer this and other related questions Bartsch draws upon twenty five years of research into American and Japanese records and interviews with many of the participants themselves particularly survivors of the actual attack on Clark and Iba air bases The dramatic and detailed coverage of the attack is preceded by an account of the hurried American build up of air power in the Philippines after July 1941 and of Japanese planning and preparations for this opening assault of its Southern Operations Bartsch juxtaposes the experiences of staff of the U S War Department in Washington and its Far East Air Force bomber fighter and radar personnel in the Philippines who were affected by its decisions with those of Japan s Imperial General Headquarters in Tokyo and the 11th Air Fleet staff and pilots on Formosa who were assigned the responsibility for carrying out the attack on the Philippines five hundred miles to the south In order to put the December 8th attack in broader context Bartsch details micro level personal experiences and presents the political and strategic aspects of American and Japanese planning for a war in the Pacific Despite the significance of this subject matter it has never before been given full book length treatment This book represents the culmination of decades long efforts of the author to fill this historical gap

Off Target William Wolf, 2021-03-13 Every week the TV news highlights the routine use of drones and guided missiles against terrorist enemies and the recreational use of drones has become commonplace The Nazi WWII development of guided missiles and bombs is often given credit for America s Cold War success in this realm However it was during that war that America and the Air Force in particular also began the development of systems and weapons that laid the foundation for today s technology Off Target relates in detail the then Secret research development and combat employment of these early guided bombs missiles and drones from 1917 to 1948 Using formerly Secret Confidential manuals reports microfilm print outs and photos collected over 40 years author Wolf gives the air war historian and enthusiast a detailed look at this unknown topic that progressed from biplane drones to sophisticated post WWII guided missiles Among the subjects discussed are Sperry s aerial torpedo and the Kettering Bug of WWI to WWII s early rudimentary GB Series Glide Bombs to the more sophisticated VB Series that evolved from radio heat

light or television guidance The Aphrodite Joseph Kennedy B 17 BQ TDR and target drones are discussed as are the SWOD GLOMB GORGON and JB Jet bomb series [Searching for the Spirit of the West](#) Luigi Morelli,2023-05-29 How can the West rediscover its authentic spirit Exploring the period from 1899 to 1945 from the end of the US frontier and the writing of The Wonderful Wizard of Oz to the conclusion of World War II and the dropping of the atom bomb Luigi Morelli traces the events that led the United States to become the world s dominating imperial force America he demonstrates is deeply connected to Britain Germany and Eastern Europe particularly Russia Yet despite their tragic collective histories there is hope for the future if only America can claim its true task Searching for the Spirit of the West challenges many of the falsehoods that pass for mainstream history Utilizing a wealth of documented evidence from the research of overlooked historians economists social and spiritual thinkers the author takes a symptomatic view of the past revealing hidden longer term trends This approach offers a new understanding of events such as the rise of Nazism the Great Depression the new Deal and even the roles of banking and clandestine brotherhoods in world history Morelli also appraises The Wonderful Wizard of Oz in parallel with America s cultural achievements Through imagination L Frank Baum s contemporary fairy tale enables us to intuit the true mission of the West and its potential contribution to world culture now and in the future *The Atlantic* ,1952 *The American Hereford Record and Hereford Herd Book* American Hereford Cattle Breeders' Association,1919 Brief history of Hereford cattle v 1 p 359 375 [The Atlantic Monthly](#) ,1952 [Rude Awakenings](#) Keith Donaldson,2012-05 Whatever your political bent firmly entrenched in an existing party or searching for something new Rude Awakenings will get you thinking what if This latest novel by Keith M Donaldson describes a country in upheaval desperate for new ideas In a nation fleeced by selfish politicians and bereft of pride and purpose the American voters turn to a new party for presidential representation Mike Macdonald of the Centrist Party The smoke filled back rooms of American politics feel the winds of change as the Centrists won enough seats in the Senate and House to create a three party system with no single party holding a majority They and President Macdonald were focused on financial and social renewal However the nuclear bombing of an American city and a diabolical foreign plot to strip the US dollar to third world status forces Macdonald to put on his poker face and set up an international bluff that has to work Rude Awakenings is resplendent in vivid characters compelling relationships and financial military and Intelligence strategies The story will invoke your courage sense of romance and fervor for outwitting the bad guys **Boeing Magazine** ,1956 [Air Force Journal of Logistics](#) ,2005 [This Is Pearl](#) Walter Millis,1947 The subject of the book is the year preceding Pearl Harbor the relations of the United States and Japan Japanese planning for aggression our own warlike preparations and the background of the country The source is the record of the Pearl Harbor investigation supplemented by various official journalistic and personal works The American Historical Review Vol 54 no 1 October 1948 review **Fortnight of Infamy** John Burton,2006 While America was preoccupied with the aftermath of Pearl Harbor an even greater tragedy was unfolding across Southeast Asia From Wake Island to Burma the Empire of Japan

opened the largest front in the history of warfare an aircraft driven invasion of colonial possessions throughout the Far East that crumbled the entire Western imperial legacy of the nineteenth century Events during the first two weeks of battle set the stage for the greatest military defeats America and Great Britain would suffer during any conflict This book offers the first comprehensive overview of the collapse of Allied air forces during the period between December 8 and 24 1941 Written for a wide audience it gives readers both a cockpit view of the desperate actions that took place and an understanding of why such heavy losses occurred The narrative account includes enough detail and analysis to hold the interest of serious students of Pacific War aviation and enough exciting descriptions of air combat to attract those with little knowledge of the subject Explaining how and why the Japanese were able to win a quick victory John Burton points to U S failures in the concepts for employment of airpower and a significant underestimation of Japanese air mindedness and aviation capabilities failures that resulted in the loss or surrender of more than 200 000 troops at Bataan and Singapore *Air Power History*, 2001
