these regions have an incentive to follow the study of business in the other regions if for no other reason than that many global firms from each region operate in all regions now Nonetheless the more important reason for knowledge transfer among researchers of each region is that these exchanges can only advance everyone's research Henry Yeung and the contributors are to be thanked for setting out a rich agenda for research on Asian business that will elevate this study to equality with research elsewhere in the world Eurasian Geography and Economics This book is extremely comprehensive and well researched It will be of particular interest to scholars in the fields of international business development studies economic geography regional studies as well as international and national policymakers Science Technology Society The rise of Asia as an important region for global business has been widely recognized as one of the most significant economic phenomena in the new millennium This accessible and comprehensive Handbook brings together state of the art reviews of Asian business in an expansive range of areas including business organizations strategic management marketing state business relations business and development business policy issues It is argued that whilst academic studies on Asian business have been in existence for over two decades there is relatively little systematic integration of our knowledge and research on Asian business The contributors drawn from a variety of disciplines within the social sciences aim to redress the balance with their lively cutting edge discussion Serving as a timely overview of more than two decades of scholarly research this Handbook will be an essential resource for academics students and researchers interested in Asian business
