## **Business Expectations:**

Handbook of Economic Expectations Ruediger Bachmann, Giorgio Topa, Wilbert van der Klaauw, 2022-11-04 Handbook of Economic Expectations discusses the state of the art in the collection study and use of expectations data in economics including the modelling of expectations formation and updating as well as open questions and directions for future research The book spans a broad range of fields approaches and applications using data on subjective expectations that allows us to make progress on fundamental questions around the formation and updating of expectations by economic agents and their information sets The information included will help us study heterogeneity and potential biases in expectations and analyze impacts on behavior and decision making under uncertainty Combines information about the creation of economic expectations and their theories applications and likely futures Provides a comprehensive summary of economics expectations literature Explores empirical and theoretical dimensions of expectations and their relevance to a wide array of subfields in economics

**The Routledge Handbook of Economic Expectations in Historical Perspective** Laetitia Lenel, Alexander Nützenadel, Jochen Streb, Ingo Köhler, 2025-11-18 The Routledge Handbook of Economic Expectations in Historical Perspective offers a one stop reference that distills and summarizes the recent scholarship on economic expectations Investigating the dynamics effects and determinants of economic expectations from a global perspective since the seventeenth century this book enhances the understanding of expectation formation across time and space Expectations drive economic decision making and thus offer a fundamental key to understanding economic behavior Given the centrality of economics to society the historical study of economic expectations is a highly relevant endeavor for which this volume provides an accessible starting point Featuring 33 chapters written by leading scholars from fields ranging from anthropology to political science this handbook provides a uniquely interdisciplinary perspective Together the collection of essays argues that the development of economic theory and empirical research on expectation formation has not taken place in a vacuum Rather it must be understood as one strand in a complex entanglement of knowledge production experiences and economic and political decision making which interacted with challenged and transformed each other With its broad scope this handbook will be of interest to students and scholars across multiple disciplines including economic history economics sociology anthropology psychology and political science
