Butchart Gardens A Family Legacy:

A Family Legacy David Clarke, 2003 *A Family Legacy* David Clarke, 2003 Public Garden Management: a Global Perspective BIJAN DEHGAN, 2014-04-15

Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public

gardens are currently referred to as botanical and zoological garden Population density and the public's desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity

Tod Inlet Gwen Curry, 2015-06-30 Tod Inlet has been a place of refuge for hundreds if not thousands of years but few are aware of its history This tiny fjord less than a half hour from downtown Victoria is part of Gowlland Tod Provincial Park and is accessed by a forested path beside Tod Creek For centuries it was the home of the WS NE Saanich people providing everything for their spiritual and material sustenance In the early part of the twentieth century a small company town grew on its shores Houses a railway a clay mill a factory and a dock for steamships were built for the Vancouver Portland Cement Company When the cement company had exhausted the limestone quarries Jennie Butchart began her ambitious cultivation project Butchart Gardens Developers made plans for marinas golf courses and hotels to be built on this quiet inlet but local citizens environmentalists scientists and Native people fought back Almost all the buildings have been demolished but concrete and iron are not easily disposed of and reminders of the past confront the walker everywhere shell middens spill into the sea fruit trees and garden flowers mingle with indigenous plants and century old industrial relics litter the creek the forest and the Inlet But despite the ravages of the past century Tod Inlet retains a spirit of peace and renewal In other environments this clash of the man made with the natural can create an unsettling mix Here time has allowed nature to begin the healing and has morphed into a present that speaks softly of its past Gwen Curry takes us on her walks down to the Inlet Her beautiful photographs capture the spirit of present day Tod Inlet while her sensitive prose gives us glimpses into the Inlet's natural industrial and Native history
