Current Biography Yearbook, 1986 **Current Biography Yearbook 1986**, **THE LEGACY OF PRINCE MANGOSUTHU BUTHELEZI** Themba Nzimande, 2011-04-08 Many myths and fallacies have surrounded the life of Prince Mangosuthu Buthelezi a man who has played a profound and undeniable role in shaping the history and culture of South Africa for more than half a century Yet even his opponents refer to him as the doyen of South African politics This book chronicles Buthelezi s legacy in South Africa s struggle for liberation It examines his utterances beliefs and warnings to the ANC alliance the apartheid government and the people of South Africa at large In doing so it exposes the myths and challenges the propaganda while forging a clearer picture of the man about whom so much has been written The book considers Buthelezi s principled advocacy of peaceful change when it was fashionable to cry for violence It explores his influential role at the negotiating table at CODESA and reflects on why his vision and commitment could not be ignored by his opponents His active espousal of federalism in direct opposition to the unitary one party state envisioned by the ANC is also investigated Finally the book chronicles Buthelezi s service in the Government of National Unity and the reasons why Presidents Nelson Mandela and Thabo Mbeki entrusted him with running the State more than twenty times over a five year period Through writing this book the author has come face to face with the unique character of Buthelezi from his remarkable leadership skills to his workaholic tendencies Buthelezi s undeniable integrity loyalty faith and wisdom have influenced the making of his legacy which has somehow married liberal values with ubuntu botho a form of African humanism For more than 60 years Buthelezi has carried the torch he inherited from leaders like Dr Pixley ka Isaka Seme Professor ZK Mathews and Inkosi Albert Luthuli This book describes the journey Themba Nzimande holds a degree in political science and public management He has been involved in the politics of the Inkatha Freedom Party since its inception in 1975 and has served on its Central Committee **Encyclopedia of World Biography**, 1998 Presents brief biographical sketches which provide vital statistics as well as information on the importance of the person listed Who's who of Southern Africa, 2006 Vols for 1967 70 include as a section Who s who of Rhodesia Mauritius Central and East Africa

The Rise and Fall of Apartheid David Welsh, 2010 On his way into Parliament on 2 February 1990 FW de Klerk turned to his wife Marike and said referring to his forthcoming speech South Africa will never be the same again after this Did white South Africa crack or did its leadership yield sufficiently and just in time to avert a revolution The transformation has been called a miracle belying gloomy predictions of race war in which the white minority went into a laager and fought to the last drop of blood Why did it happen In **The Rise and Fall of Apartheid** David Welsh views the topic against the backdrop of a long history of conflict spanning apartheid s rise and demise and the liberation movement s suppression and subsequent resurrection His view is that the movement away from apartheid to majority rule would have taken far longer and been much bloodier were it not for the changes undergone by Afrikaner nationalism itself There were turning points such as the Soweto

uprising of 1976 but few believed that the transition from white domination to inclusive democracy would occur as soon and as relatively peacefully as it did. In effect however a multitude of different factors led the ANC and the National Party to see that neither side could win the conflict on its own terms. Utterly dissimilar in background, culture, beliefs and political style, Nelson Mandela and FW de Klerk were an unlikely pair of liberators. But both soon recognised that they were dependent on each other to steer the transformation process through to its conclusion.

Political Leaders of Contemporary Africa South of the Sahara Harvey Glickman, 1992-08-24. This is the first biographical dictionary of major political leaders in sub-Saharan Africa since 1945, leaders who have made important and often determinative contributions to politics and government in their countries and in the region as a whole. Editor Harvey Glickman has brought together an international team of experts to profile fifty-three important heads of state, theorists, party leaders and politicians from a representative group of African countries. An invaluable reference for libraries of all kinds, this dictionary will be useful to advanced scholars and neophytes alike in evaluating African leadership, national political systems and contemporary world history in general. Glickman's introduction explains the criteria used for selecting the figures profiled and then describes what is involved in being a political leader in Africa in the late colonial period, in early independence and now in the fourth decade of independence as new forms of government and leadership appear in Africa. Glickman remarks on the lack of women in high ranks of African politics and explores reasons for their notable absence. Each profile examines the role of the leader in history, the personal events of birth, tribal affiliation, education, early career and rise to political power. Figures chosen represent a variety of types including founding fathers, radical opposition party leaders, conservatives, socialists, oppressive dictators and philosophical theorists. Each entry has a bibliography of works by and about the leader. A chronology lists events in sub-Saharan politics from 1892 to 1991. A list of important figures by country and a short bibliography of general works on political leadership and change in Africa complete the volume.
