Butte Irish:

European Immigrants in the American West Frederick C. Luebke, 1998-12 An anthology of historical articles on European immigration to the American West in the 19th century

Irish Butte Debbie Bowman Shea, 2011 Summoned by the call of the copper mines in Butte Montana Irish immigrants left a struggling Ireland at the beginning of the 20th century in search of a better life Around the mines peppering the hills of the mining city these determined sons and daughters of Eire built strong Irish neighborhoods that engendered the best of Irish culture and influence Faith family a strong work ethic and a sense of humor would see these immigrants through the decades Celebrations like St Patrick's Day and An Ri Ra Irish language workshops and a new generation of Irish artisans acknowledge the contributions of this influential group

The Deportation Express Ethan Blue, 2021-10-19 A history of the United States systematic expulsion of undesirables and immigrants told through the lives of the passengers who travelled from around the world only to be locked up and forced out aboard America's first deportation trains The United States celebrated as a nation of immigrants and the land of the free has developed the most extensive system of imprisonment and deportation that the world has ever known The Deportation Express is the first history of American deportation trains a network of prison railroad cars repurposed by the Immigration Bureau to link jails hospitals asylums and workhouses across the country and allow forced removal with terrifying efficiency With this book historian Ethan Blue uncovers the origins of the deportation train and finds the roots of the current moment as immigrant restriction and mass deportation once again play critical and troubling roles in contemporary politics and legislation A century ago deportation trains made constant circuits around the nation gathering so called undesirable aliens migrants disdained for their poverty political radicalism criminal conviction or mental illness and conveyed them to ports for exile overseas Previous deportation procedures had been violent expensive and

relatively ad hoc but the railroad industrialized the expulsion of the undesirable. Trains provided a powerful technology to divide citizens from aliens and displace people in unprecedented numbers. Drawing on the lives of migrants and the agents who expelled them, *The Deportation Express* is history told from aboard a deportation train. By following the lives of selected individuals caught within the deportation regime, this book dramatically reveals how the forces of state exclusion accompanied epic immigration in early twentieth century America. These are the stories of people who traveled from around the globe only to be locked up and cast out, deported through systems that bound the United States together and in turn pulled the world apart. Their journey would be followed by millions more in the years to come.

America's Changing Neighborhoods Reed Ueda, 2017-09-21. A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region, state, and big city. Race, ethnicity, and immigrants' lives and identity are all key topics that Americans need to study in order to fully understand U.S. culture, society, politics, economics, and history. Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States. This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A-Z entries that explore the places and people in every major U.S. region and neighborhood. *America's Changing Neighborhoods: An Exploration of Diversity* uniquely combines the history of ethnic groups with the history of communities, offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation, in regions and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars, cross-references at the end of each entry, and cross-indexing of entries serve readers conducting preliminary as well as in-depth research. The book's state-by-state entries also offer population data and an appendix of ancestry statistics from the U.S. Census Bureau details ethnic and racial diversity.

Darkest Before Dawn Clemens P. Work, 2006. Today's threats against freedom of speech echo the hysteria of World War I when Americans went to prison for dissent. This cautionary tale focuses on events in Montana and the West that led to the suspension of this crucial right.

Montana, 2016. [The Butte Irish](#) David M. Emmons, 1989-02-01. In this pioneering study, David Emmons tells the story of Butte's large and assertive population of Irish immigrants. He traces their backgrounds in Ireland, the building of an ethnic community in Butte, the nature and hazards of their work in the copper mines, and the complex interplay between Irish nationalism and worker consciousness. From a treasure trove of Irish stuff, the reports, minutes, and correspondence of the major Irish-American organizations in Butte, Emmons shows how the stalwart supporters of the RELA and the Ancient Order of Hibernians marched and drilled for Irish freedom and how, as they ran the town, the miners' union and the largest mining companies they used this tradition of ethnic cooperation to ensure safe and steady work. Irish mines taking care of Irish miners: Butte was new, overwhelmingly Irish, and extraordinarily dangerous—the ideal place to

test the seam between class and ethnicity

Many Wests David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places **Many Wests** presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions
