American Book Publishing Record ,2004      **Springfield City Library Bulletin** Springfield City Library Association (Springfield, Mass.),1901      *Ravana's Lanka* Sunela Jayewardene,2024-07-31 The story of the kingdom that Ravana had ruled lay over the island like a fading antique map The edges of the story were frayed and there were lines disconnected by time but the landscape it traced exists Demonized as he was after his death the reign of King Ravana of Lanka and his ancestors the powerful Mayuranga has long been obscured and shrouded in myth Once their kingdom is believed to have reached beyond the shores of the island capturing lands across the seas a kingdom of that magnitude was never seen again on Lanka In a bid to shed light on this lost era Sunela Jayewardene travelled through Sri Lanka and listened to the storytellers and poets researched Sri Lanka s folklore sifted through race and religion to stitch together a history of a forgotten landscape This remarkable vivid book is the story Sunela learnt of King Ravana and the kingdom that he lost

**Insect Conservation: Past, Present and Prospects** Tim R. New,2012-03-14 The history of interest and practice in insect conservation is summarised and traced through contributions from many of the leaders in the discipline to provide the first broad global account of how insects have become incorporated into considerations of conservation The essays collectively cover the genesis and development of insect conservation emphasising its strong foundation within the northern temperate regions and the contrasts with much of the rest of the world Major present day scenarios are discussed together with possible developments and priorities in insect conservation for the future      **Hormones, Brain and Behavior** ,2016-11-09 *Hormones Brain and Behavior* Third Edition offers a state of the art overview of hormonally mediated behaviors including an extensive discussion of the effects of hormones on insects fish amphibians birds rodents and humans Entries have been carefully designed to provide a valuable source of information for students and researchers in neuroendocrinology and those working in related areas such as biology psychology psychiatry and neurology This third edition has been substantially restructured to include both foundational information and recent developments in the field Continuing the emphasis on interdisciplinary research and practical applications the book includes articles aligned in five main subject sections with new chapters included on genetic and genomic techniques and clinical investigations This reference provides unique treatment of all major vertebrate and invertebrate model systems with excellent opportunities for relating behavior to molecular genetics The topics cover an unusual breadth from molecules to ecophysiology ranging from basic science to clinical research making this reference of interest to a broad range of scientists in a variety of fields Comprehensive and updated coverage of a rapidly growing field of research Unique treatment of all major vertebrate and invertebrate model systems with excellent opportunities for relating behavior to molecular genetics Covers an unusual breadth of topics and subject fields ranging from molecules to ecophysiology and from basic science to clinical research Ideal resource for interdisciplinary learning and understanding in the fields of hormones and behavior      *Catalogue of Books in the Lending*

*Department of the Plumstead Library Woolwich Public Libraries, Woolwich, Eng,1904*      **The Welfare of Invertebrate Animals** Claudio Carere, Jennifer Mather, 2019-07-02 This book is devoted to the welfare of invertebrates which make up 99% of animal species on earth Addressing animal welfare we do not often think of invertebrates in fact we seldom consider them to be deserving of welfare evaluation And yet we should Welfare is a broad concern for any animal that we house control or utilize and we utilize invertebrates a lot The Authors start with an emphasis on the values of non vertebrate animals and discuss the need for a book on the present topic The following chapters focus on specific taxa tackling questions that are most appropriate to each one What is pain in crustaceans and how might we prevent it How do we ensure that octopuses are not bored What do bees need to thrive pollinate our plants and give us honey Since invertebrates have distinct personalities and some social animals have group personalities how do we consider this And as in the European Union s application of welfare consideration to cephalopods how do the practical regulatory issues play out We have previously relegated invertebrates to the category things and did not worry about their treatment New research suggest that some invertebrates such as cephalopods and crustaceans can have pain and suffering might also have consciousness and awareness Also good welfare is going to mean different things to spiders bees corals etc This book is taking animal welfare in a very different direction Academics and students of animal welfare science those who keep invertebrates for scientific research or in service to the goals of humans as well as philosophers will find this work thought provoking instructive and informative
