Summer by the Seaside Bryant Franklin Tolles, 2008 A sweeping richly illustrated architectural study of the large historic New England coastal resort hotels *Ground Water in the Seaside Area, Monterey County, California* Kenneth S. Muir, 1982 *Race, Place and the Seaside* Daniel Burdsey, 2016-08-18 This is the first academic monograph to focus exclusively on issues of race ethnicity whiteness and multiculturalism at the English seaside The book calls for acknowledgement of the racialised nature of this environment and proposes that its distinctive spaces places traditions and narratives should be included within broader analyses of race in contemporary Britain Introducing the concept of coastal liquidity to explain shifting ethno racial demographics migratory politics and spatial dynamics at the edge of the sea along with the relative immobilities of the minority ethnic communities who move and reside there the author provides a relational exploration of seaside experiences both as a locus of racialised categorisation exclusion and subjugation and one of resistance conviviality and intercultural exchange Combining theoretical insight and empirical fieldwork the book disrupts dominant thinking that fixes ontologically minority ethnic bodies to urban spaces and overcomes their erasure and silencing from the seaside landscapes of the popular imagination

Designing the Seaside Fred Gray, 2006 In *Designing the Seaside* Fred Gray provides a history of seaside architecture from the 18th century to the present day investigating leisure entertainment taste fashion and gender and shows how the seaside even became a hotbed for moral and sexual issues from the early use of bathing machines to twentieth century beauty pageants and naturist groups He relates the evolution of resort architecture to sweeping changes in how seaside nature was experienced and used by holidaymakers The book also traces the history of the coastal resort with examples ranging from Regency Sidmouth to Victorian Scarborough and early 20th century Morecambe as well as assessing seaside developments in the USA and Continental Europe from Coney Island and Santa Barbara to Nice and Trouville Featuring many colourful informative and often entertaining photographs drawings guidebook illustrations postcards and publicity posters from resorts around the world *Designing the Seaside* is a thoroughly readable as well as a visually fascinating account of changing attitudes to holidaymaking and its setting
