Teacher-Student Relationships Ernest J. Zarra III, 2013-04-08 Why are so many public school teachers administrators and coaches choosing to become romantically and sexually involved with teenage students and players Since 2000 numbers of intimate relationships between teachers and students have skyrocketed Teacher arrests are at all time highs Is there a correlation between these relationships and communication and social technologies The book explores What is driving those in public and private education to have romantic and sexual relationships with their students and to jeopardize their careers families reputations and freedom What roles do communication and social technologies play in feeding teacher student relationships Who is protecting teenagers from predator teachers and predator coaches in our schools Is there a new phenomenon in schools The Predator Teenage Student What practical strategies can be put in place to protect teenagers from sexual predators on our campuses The appropriate educational use of communication technologies on high school campuses This book is provocative and relevant for educators at all levels public and private It is also a must read for professors teachers in training athletic and academic coaches school administrators and parents *Odyssey of Culture* Yan Zhou, 2015-03-11 This book is the first case study on Wenda Gu that systematically investigates the cultural and artistic context of his life and works examining selected images of his artwork spanning from the late 1970s to the early 21st century It is the first monograph to provide a comprehensive and profound study of a Chinese contemporary artist In the 1980s the School of Hermeneutics attempted to launch a discursive revolution Vanguard artists believed that the visual art revolution was an integral part of the critique of culture because it tended to subvert and rebuild the cultural tradition at a discursive level This book using a case study on Wenda Gu as representative of Chinese avant garde investigates the centrality of culture in art providing readers with insights on the origin rationale and methodology of Chinese contemporary art *Julian of Norwich* Kevin Magill, 2006-07-13 Julian of Norwich was a fourteenth century woman who at the age of thirty had a series of vivid visions centred around the crucified Christ Twenty years later while living as an anchoress in a church she is believed to have set out these visions in a text called the Showing of Love Going against the current trend to place Julian in the category of mystic a classification which defines her visions as deeply private psychological events this book sets Julian s thinking in the context of a visionary project used to instruct the Christian community Drawing on recent developments in philosophy that debate the objectivity and rationality of vision and perception Kevin J Magill gives full attention to the depth and richness of the visual language and modes of perception in the Showing of Love In particular the book focuses on the ways in which Julian presented her vision to the Christian society around her demonstrating the educative potential of interaction between the isolated anchoress and the wider community Challenging Julian s identification as a mystic and solitary female writer this book argues that Julian engaged in a variety of educative methods oral visual conversational mnemonic alliterative that extend the usefulness of her text **List of Books in the National Art Library, South**
