which cannot provide full sensorial contact and therefore emotions cannot be communicated completely The intimate cover
of the human body i e garment is the interface where many personal traits are embodied With the improvements in textile
and electronics industry this embodiment can be carried on a higher level where the garments become dynamic interfaces
and extensions of the human body This book consists of a research on skin clothes and technology as extensions of human
body emotions technology mediated emotions and a design practice that explores the communicative level of wearable
technology through turning it into a living surface which can convert intangible data to tangible in order to provide an
emotional communication This book aims to show how Human Technology interaction is carried into an alternative context
