Guardian of Lies Steve Martini,2009-07-14 A man outside watches the same mansion waiting for a sign that he can enter on his mission of blood and carnage

**Rules for Rebels** Max Abrahms,2018-09-12 Ever wonder why militant groups behave as they do For instance why did Al Qaeda attack the World Trade Center whereas the African National Congress tried to avoid civilian bloodshed Why does Islamic State brag over social media about its gory attacks while Hezbollah denies responsibility or even apologizes for its carnage This book shows that militant group behaviour depends on the tactical intelligence of the leaders The author has extensively studied the political plights of hundreds of militant groups throughout world history and reveals that successful militant leaders have followed three rules These rules are based on original insights from the fields of political science psychology criminology economics management marketing communication and sociology It turns out there s a science to victory in militant history But even rebels must follow rules
