succeed He analyzes revolutions through the lens of those who participated and explores the sociopolitical conditions that led to a revolutionary situation the differing responses to those conditions and the outcomes of those political changes Each case study provides an interpretive explanation of the historical context in which each movement emerged its main goals and achievements its shortcomings its outcome and its legacy The book concludes with an analysis of how elected leftist governments in the twenty first century continue to struggle with issues that revolutionaries confronted throughout the twentieth century *Modern Latin American Revolutions* Eric Selbin,2018-02-07 In contrast to previous studies that have centered on the institutionalization of revolution in Latin America and the Caribbean *Modern Latin American Revolutions* Second Edition introduces the concept of consolidation of the revolutionary process the efforts of revolutionary leaders to transform society and the acceptance by a significant majority of the population of the core of the social revolutionary project As a result the spotlight is on people not structures and transformation not simply revolutionary transition The second edition of this acclaimed book has been revised to include new information on the cases of Bolivia Cuba Nicaragua and Grenada assessing the extent to which each revolution was both institutionalized and consolidated This edition also boasts expanded coverage on Ch uevara s visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean Dr Selbin argues that there is a strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru
