Counts, 1932 **Anti-Bolshevik Communism** Paul Mattick, Jr., 2017-09-29 This title was first published in 1978 Communism aims at putting working people in charge of their lives A multiplicity of Councils rather than a big state bureaucracy is needed to empower working people and to focus control over society Mattick develops a theory of a council communism through his survey of the history of the left in Germany and Russia He challenges Bolshevik politics especially their perspectives on questions of Party and Class and the role of Trade Unions Mattick argues that a The revolutions which succeeded first of all in Russia and China were not proletarian revolutions in the Marxist sense leading to the a association of free and equal producers a but state capitalist revolutions which were objectively unable to issue into socialism Marxism served here as a mere ideology to justify the rise of modified capitalist systems which were no longer determined by market competition but controlled by way of the authoritarian state Based on the peasantry but designed with accelerated industrialisation to create an industrial proletariat they were ready to abolish the traditional bourgeoisie but not capital as a social relationship This type of capitalism had not been foreseen by Marx and the early Marxists even though they advocated the capture of state power to overthrow the bourgeoisie a but only in order to abolish the state itself a [Bolshevism, Fascism and Democracy](#) Francesco Saverio Nitti, 1927 **Bolshevism, fascism and democracy** Francesco Saverio Nitti, 1927 **Fascism** Leon Trotsky, 2002 Presented here is the Marxist explanation of fascism one of the most horrible forms of capitalist rule In the 1920s and 1930s exiled Russian revolutionary leader Leon Trotsky analysed German fascism as it developed Through these prescient writings he tried to alert the workers movement to the mortal danger threatening and arm it for the struggle For Trotsky fascism was a response of the capitalist ruling class to a severe crisis of its system Through fascism capitalism attempts to create a mass movement of the desperate middle class to use as a weapon to smash all forms of working class organisation Thus fascism did not die with Adolf Hitler in his Berlin bunker but is inherent in the capitalist system If that system is once more threatened by economic crisis and working class revolt the bosses may again turn to the fascist option The threat of fascism with all its horrors can only be ended by the working class organising to get rid of capitalism and establish a socialist society **Fascism, the Danger of War and the Tasks of the Communist Parties** Otto Wille Kuusinen, 2012-10-01 **Russia Under the Bolshevik Regime** Richard Pipes, 2011-05-04 From the acclaimed authority on Russia and the Russian

Revolution the final volume in his magisterial history of the Russian Revolution covering the period from the outbreak of the Civil War in 1918 to Lenin's death in 1924 Offers a penetrating analysis of the making of the Soviet system It is a passionate book whose outstanding scholarship is rooted in universal values like truth honor responsibility and the sacredness of human life Philadelphia Inquirer Timely The work is enriched in intriguing ways by the author's access to the once secret archives of the Soviet Union Los Angeles Times **The Encyclopædia Britannica** Hugh Chisholm, James Louis Garvin, 1926

Selected Articles on Capitalism and Its Alternatives, 1933 **Monthly Bulletin of the Carnegie Library of Pittsburgh** Carnegie Library of Pittsburgh, 1929 The Booklist Books, 1930 Contains general literature fiction children's books technical books **Current History**, 1926 **The New York Times Current History**, 1925 **Booklist Books, a Selection** American Library Association, 1922 **The Origins of Neoliberalism** Giandomenica Becchio, Giovanni Leghissa, 2016-11-25 Neoliberalism is a doctrine that adopts a free market policy in a deregulated political framework In recent years neoliberalism has become increasingly prominent as a doctrine in Western society and has been heavily discussed in both academia and the media In *The Origins of Neoliberalism* the joint effort of an economist and a philosopher offers a theoretical overview of both neoliberalism's genesis within economic theory and social studies as well as its development outside academia Tracing the sources of neoliberalism within the history of economic thought the book explores the differences between neoliberalism and classical liberalism This book's aim is to make clear that neoliberalism is not a natural development of the old classical liberalism but rather that it represents a dramatic alteration of its original nature and meaning Also it fights against the current idea according to which neoliberalism would coincide with the triumph of free market economy In its use of both history of economics and philosophy this book takes a highly original approach to the concept of neoliberalism The analysis presented here will be of great interest to scholars and students of history of economics political economy and philosophy of social science
