

# BUSINESS MATH FORMULAS

## BASIC FORMULAE & DEFINITIONS FOR AN INTRODUCTORY COURSE IN BUSINESS MATHEMATICS

### MARKUP & MARKDOWN

**Markup:** Amount required to cover operating expenses and make a profit

- cost of goods is what the retailer pays the supplier or manufacturer for goods
- selling price of goods is what the customer pays the retailer for goods (i.e., the buyer's purchasing price)
- cost + markup = selling price
- markup (or margin) = selling price - cost

#### Markup Based on Cost

- percent markup on cost =  $\frac{\text{markup}}{\text{cost}}$
- percent markup on cost =  $\frac{\text{percent markup on selling price}}{1 - \text{percent markup on selling price}}$

#### Markup Based on Selling Price

- percent markup on selling price =  $\frac{\text{markup}}{\text{selling price}}$
- percent markup on selling price =  $\frac{\text{percent markup on cost}}{1 + \text{percent markup on cost}}$

#### Markdown

- markdown = original selling price - marked down price
- markdown percent =  $\frac{\text{markdown}}{\text{original selling price}}$
- markdown =  $\text{markdown percent} \times \text{original selling price}$

#### Pricing Perishable Units of Goods

- selling price per unit =  $\frac{[\text{total cost of all units} - \text{percent markup on cost} (\text{total cost of all units})]}{[\text{total units} - \text{total spoiled units}]}$

### DISCOUNTS

**Discount:** Reduction to a basic price

**Trade Discounts:** Discounts given to partners in the distribution channel of goods; also called **functional discounts**, and are given to distribution channel members to perform specific tasks

- net price = list price - trade discount amount

**Cash Discount:** Discounts given to customers for paying with cash; cash discount is also called **sales discount by seller** or **purchase discount by buyer**

- cash discount = selling price (or invoice amount)  $\times$  cash discount rate
- amount buyer pays = selling price - cash discount

**Terms:** Cash discount rate is usually stated in credit terms; credit term 2/10 on an invoice means that a 2% cash discount is allowed if the payment is made within 10 days of the date of the invoice; cash discount period can also begin when the buyer receives the goods (ROG = receipt of goods)

### PAYROLL

**Pay Based on Hourly Wages:** Pay is based on hours of work done

- gross pay = (number of regular hours  $\times$  regular hourly rate) + (number of overtime hours  $\times$  overtime hourly rate)

**Pay Based on Piece Work:** Pay is based on acceptable pieces of work produced

- gross pay = total number of acceptable pieces produced  $\times$  piece work rate

**Pay Based on Commission:** Commission is a percentage of sales; usually paid to the person generating the sales

- gross pay = commission = sales  $\times$  commission rate

### INTEREST

**Exact Number of Days:** Interest is calculated over a time period, from when a loan is given to the end date; day the loan is due may or may not be included in the period

- To determine loan period, the actual number of days in each month should be known

**Tip:** 30 days hath September, April, June, and November; all the rest have 31, excepting February alone, which hath but 28, in fine, till leap year gives it 29.

- Leap years are divisible by 4, which is why 2004 was a leap year and also why an extra day is added to February in every leap year

**Simple Interest:** Time is expressed in the same units as the rate; if  $r$  is an annual rate, then  $t$  is in years

- simple interest ( $I$ ) = principal ( $p$ )  $\times$  rate in percent ( $r$ )  $\times$  time ( $t$ )

- maturity value = principal + interest

$p$  is principal is the loan (or borrowed) amount or invested amount (face value);  $I$  is the amount of interest paid for the loan or earned on the investment;  $r$  is the percent rate of interest paid for the use of someone else's money or earned for lending the money

- exact interest:  $\text{time} = t = \frac{\text{exact number of days}}{365}$

- ordinary interest (Banker's Rule):  $\text{time} = t = \frac{\text{exact number of days}}{360}$

**Partial Payment Rule:** Any partial loan payment is first used to pay the interest that has accrued (total interest to date), and the remainder is used to reduce the principal of the loan

### DEPRECIATION

**Depreciation:** Loss in value of tangible business assets or property (excluding land) over its useful life due to deterioration, obsolescence, etc.; also called **depreciation expense**; periodically charged to operating expenses; total depreciation limited to cost of property

- accumulated depreciation = total amount of depreciation to date
- cost of asset = cost paid for asset, including freight
- book value of asset = cost of asset - accumulated depreciation

**Compound Interest:** Interest that is paid on both the principal and the interest accumulated from past periods; interest gained is added to the original investment

- maturity value =  $p \times (1 + i)^n$

where  $p$  = principal;  $i$  = interest rate in percent per period;  $n$  = number of periods

- alternative formula: maturity value (future value) =  $p \times (1 + rit)^n$

where  $t$  = time in years;  $r$  = number of periods per year;  $i$  = interest rate in percent per year

| compounding period is | interest is calculated every | $n$ |
|-----------------------|------------------------------|-----|
| annual                | year                         | 1   |
| semi-annual           | six months                   | 2   |
| quarter               | three months                 | 4   |
| month                 | month                        | 12  |
| day                   | day                          | 365 |

#### Present & Future Value

- present value (PV) = value of the loan or investment today
- future value (FV) or maturity value = final amount of the loan or investment at the end of the last period

#### Simple Interest Future Value

- $FV = PV \times [1 + (i \times n)]$

where  $i$  = interest rate per period;  $n$  = number of periods

#### Compound Interest Future Value

- $FV = PV \times (1 + i)^n$

where  $i$  = interest rate in percent per period;  $n$  = number of periods

Interest Earned = FV - PV

- residual value (or salvage value, scrap value) = cash value of asset at end of useful life

**Straight Line Method:** Depreciation expense is equal over each year of its useful life

- depreciation expense per year =  $\frac{(\text{asset cost} - \text{residual value})}{\text{estimated useful life of asset in years}}$

- partial-year depreciation expense = depreciation expense per year  $\times$  number of months of useful life in the year  $\div 12$

**Units of Production Method:** Depreciation expense based on the usage of the asset

- depreciation rate per unit =  $\frac{(\text{asset cost} - \text{residual value})}{\text{estimated total number of units produced over useful life of asset}}$

### **Business Math For Colleges Introduction**

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Business Math For Colleges free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Business Math For Colleges free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Business Math For Colleges free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Business Math For Colleges. In conclusion, the internet offers

numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Business Math For Colleges any PDF files. With these platforms, the world of PDF downloads is just a click away.

### **FAQs About Business Math For Colleges Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Business Math For Colleges is one of the best book in our library for free trial. We provide copy of Business Math For Colleges in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Business Math For Colleges. Where to download Business Math For Colleges online for free? Are you looking for Business Math For Colleges PDF? This is definitely going to save you time and cash in something you should think about.
