But Seriously Folks:

Constructionist Controversies Gale Miller, James A. Holstein, 2017-07-05 Constructionist Controversies reviews the substantial contributions to social problems theory that have been made by social constructionist theorists and examines debates about the future of this perspective. Intended for the student, the volume provides a succinct formulation of all the major issues of social constructionism by contributors who are well recognized within the field for the strength with which they articulate their own widely varied viewpoints.

Pieces of Soap Stanley Elkin, 2016-11-15 With a wickedly witty touch, Elkin's essays take readers on a tour of American life in the 20th century. Stanley Elkin was one of our great American writers. A divine exploiter of the idiocies and intricacies of our language as John Irving put it, and nowhere is that more clear than in this collection of essays which find Elkin wresting hilarity and heartbreak from the most unlikely of sources.

[The Handbook for Great Camps and Retreats](#) Chap. P. Clark, 2004-05-05 Camps and retreats are an essential part of every youth ministry. But could your camping ministry use a new perspective, a fresh sense of creativity and practical ideas that will help your kids see that God is relevant to their lives today? In *The Youth Specialties Handbook for Great Camps and Retreats*, veteran youth minister and camp director Chap Clark opens his comprehensive tool kit of camp and retreat concepts and ideas as he shows you how to build an effective, exciting camping program from the ground up. First, Clark calls for a rethinking of camping ministry that puts the needs of kids first. He then offers seasoned advice on how to use the basic tools of camping ministry: group building, activities, music, speaking in small groups, and more in relevant new ways. He covers topics such as developing a camping strategy, how to train your camp staff, taking a fresh look at music, and the strengths and dangers of humor. You'll find everything you need in *The Youth Specialties Handbook for Great Camps and Retreats*: how to plan a budget, how to deal with problem kids, how to work with property managers, and much more. Clark also includes complete plans for specialized camps such as discipleship, camping service, retreats, outreach, camping planning, retreats, and recreation retreats.

Reconsidering Social Constructionism Gale Miller, 2017-09-29 With the impact of social interactionist and ethnographic methodology twenty-five years ago, the research agenda in social problems began to shift its focus, giving rise to the Social Constructionism movement. The present volume and the related shorter text *Constructionist Controversies* review the substantial contributions made by social constructionist theorists over that period, as well as recent debates about the future of the perspective. These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions. A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life. The debates in this volume pose fundamental questions about the major assumptions of the perspective, the ways in which it is practiced, and the purposes of social problems theory. Their point of departure is Ibarra and Kitsuse's essay cutting new theoretical ground in calling for investigating vernacular resources.

especially rhetorical forms in the social problems process Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring They also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda

Challenges and Choices James A. Holstein, Gale Miller, The social constructionist perspective has revolutionized the way that social scientists investigate social problems Constructing Social Problems Spector and Kitsuse 1977 2001 offered the guiding statement of the approach which both transformed and revitalized the sociology of social problems propelling it into a quarter century of exciting and innovative empirical research John Kitsuse and Malcolm Spector challenged conventional approaches to the field they insisted on treating social problems as social constructions as the products of claims making and constitutive definitional processes The purpose of this book is to highlight contemporary challenges to the social constructionist perspective on social problems In 1993 two collections of essays Reconsidering Social Constructionism Debates in Social Problems Theory Holstein and Miller 1993 and Constructionist Controversies Issues in Social Problems Theory Miller and Holstein 1993 brought a wide variety of constructionist challenges into focus Challenges and Choices attempts to distill these debates and offers some compelling suggestions for how challenges may be met and where constructionist studies might proceed in the future While each of the essays in this volume deeply appreciates the constructionist approach each of them points to issues and choices that social constructionists must confront if the perspective is to continue to be a vital part of ongoing debates on social problems The essays critique previous constructionist formulations make suggestions for advancing expanding or diversifying the constructionist agenda and challenge the perspective to move in new directions They remind us that social constructionism is an ongoing not a finished product and the essays point to some of the choices available to social constructionists in moving their projects into new even uncharted territories James A Holstein and Gale Miller are professors in the Department of Social and Cultural Sciences at Marquette University
