

Pop Swagz Increased Sales with the Ad Factory & Content Marketing

About Pop Swagz

Pop Swagz is a successful online subscription box that provides its customers with a variety of gently-used vintage trinkets, toys and apparel.

While the contents of a typical box are valued at \$65 or more, a monthly subscription only costs \$22.

As subscription boxes became a more competitive space, Pop Swagz sought to amplify its online visibility. It reached out to Ad Factory.

"Ad Factory has been one of the most effective ways of bringing first-time visitors to the site compared to any other medium we've tried. Ad Factory has been invaluable to our growth and continued success!"

Emily Nakano
VP of E-Commerce, Pop Swagz

Pop Swagz Increased Sales with the Ad Factory & Content Marketing

Story Draws in Undiscovered Customers

A Unique Digital Storytelling Strategy

Pop Swagz chose to weave traditional storytelling techniques into their content and even went so far as to create "chapters" as a way to reach their audience and offer products for consideration. Each chapter appealed to a highly-specified target audience, and suggested there were many parts to the overall story that was Pop Swagz.

These stories were crafted to match the brand's existing voice, and serve as the essence behind Pop Swagz' content marketing strategy to engage potential customers.

Results that Speak Volumes

With a single campaign, Pop Swagz saw the following results:

- 98 million impressions
- 130% increase in organic social media traffic
- 18% growth in email subscriptions
- 27% increase to quarterly revenue

"Before Ad Factory, getting people on our website as a first-time visitor who would actually engage was a head-scratching challenge."

Emily Nakano, VP of E-Commerce, Pop Swagz

TRIPLE HELIX MODEL: Role of Industry, Government and Academia May Ifeoma Nwoye, Dr. Saji George, 2026-01-20

THE EMERGENCE OF THE KNOWLEDGE BASED ECONOMY

In the industrial era the primary engines of social and economic organisations were government and the private sector Today we have entered a great transformation of the 21st century the transition to a knowledge society where innovation is no longer confined to a single institutional sphere This book explores the Triple Helix a framework that captures the dynamic non linear interactions between three critical strands namely the university the industry and government thus encapsulating Three Spheres in One Ecosystem The Triple Helix model as a trilateral network links the university private sector and government First theorized by Henry Etzkowitz and Loet Leydesdorff the Triple Helix highlights how these three sectors are becoming increasingly interdependent The University Traditionally focused on knowledge creation and dissemination has now upgraded to entrepreneurial institutions acting as a primary source for regional innovation and new firms The Private Sector Industry acts as the locus of production and commercialization translating academic research into marketable products and services while increasingly investing in its own Research and Development The Government Shifts from a purely regulatory role to a public venture capitalist providing the stable contractual relations policy frameworks and seed funding necessary to foster collaborative networks Why this Book Matters Innovation is not a solo endeavor it emerges from the creative synergies at the intersections of other spheres However the path is not always smooth This book also examines how the institutions reorganize themselves create hybrid organizations like science parks and incubators and overcome systemic barriers to achieve sustainable growth Whether you are a policymaker an academic or industry leader this book serves as a guide to navigating the complex overlay of communication and collaboration that defines the modern innovation landscape
