Inside Science Education Reform J. Myron Atkin,Paul Black,2003-01-01 Two international leaders offer important insights into the ways in which the discipline of science education has developed and how school curriculum has been shaped by both scientific discovery and social change J Myron Atkin U S and Paul Black U K share their vast and varied experiences in this historical account that chronicles the many developments in the field from the end of World War II to the present The chapters in this volume cover the aims and politics of science education curriculum development subject matter boundaries pedagogy and learning assessment and evaluation educational research and practice and the teaching profession Each theme is introduced in its historical and philosophical context with current issues emphasized The authors then analyze these themes by drawing on relevant episodes from their transatlantic careers These episodes act as a springboard for developing insights into each theme including comparisons between educational practices in the United States and the United Kingdom Featuring compelling examples and a cohesive presentation this groundbreaking volume is essential reading for anyone

making decisions about the future of science education *Change Forces* Michael Fullan, 1993 Knowledge of the processes of educational change is said to be the missing ingredient in attempts to bring about educational innovation and reform Whether these efforts involve grass roots innovation or large scale societal reform failure to understand and act on existing knowledge of the change process has accounted for the widespread lack of success in making educational improvements This volume analyzes what is known about successful or productive change processes and identifies corresponding action strategies at the individual school local and state levels Included in this book is a major treatment of the topic of the ethics of planned change a neglected topic in recent literature especially since strategies for intervening in the change process are receiving more attention This book is intended to be used by teachers in training and in service teacher trainers educational researchers education historians and administrators *Dos & Don'ts of Education Reform* Anthony M. Roselli, 2005 *Dos & Don'ts of Education Reform* is a unique critical study of legislated reform in the U S Resisting the temptation to make facile recommendations for future action this book takes pointed aim at the failure of education reform Roselli blames a narrow minded focus on testing and accountability advocating instead for an honest morally driven construction of theory and practice He breaks new ground in this close multidisciplinary examination of curriculum instruction and assessment by demonstrating how to create the conditions for a successful school experience for all students a sociocultural view of success and a strong desire to improve the human condition This book is an excellent accompaniment to courses such as social foundations of education and critical issues in education as well as those dealing with educational policy and leadership

Education Reform in Societies in Transition , 2006-01-01 Framed against the background of educational change this book proposes to examine the relationship between curriculum change teacher professional development policy reform and the processes of educational change The main aims of the book are to 1 focus on educational changes and reconstruction in transitional societies that have undergone political economic and social change in the past two decades 2 provide a forum for the dissemination of research on education reconstruction and reform in transitional societies 3 disseminate ideas that enhance both the practical and theoretical aspects of educational changes in these societies 4 further knowledge and understanding of emerging trends and issues in education in these societies 5 reflect the realities of educational scenarios in each transitional society The book presents an in depth exploration of educational reconstruction in 15 transitional societies In each chapter the authors have provided an overview of educational processes in the country a distillation of education change or reform and or reconstruction in each transitional society Collectively the chapters in the book have attempted to contribute to a better understanding of the educational system in respective countries by identifying the challenges and obstacles the policy implications the teacher professional development needs and curriculum reform efforts *Extending Educational Reform* Amanda Datnow, Lea Hubbard, Hugh Mehan, 2002 Can a fundamental reform in the organisation of a school lead to school improvement This shows how theory can be applied in practice to get around issues that are preventing

change and improvement **The Politics of Education Reform in China's Hong Kong** Sonny Shiu-Hing Lo, Chung Fun Steven Hung, 2022-03-31 Education reform has become a highly political issue in the Hong Kong Special Administrative Region HKSAR since the transfer of sovereignty to the People's Republic of China PRC Lo and Hung focus on the political struggles among stakeholders including the government of Hong Kong the Catholic Church parents students teachers the central authorities of Beijing and even the bureaucratic politics between Beijing the Hong Kong government and the Examination Authority They examine the key elements of education reform in the HKSAR including language and curriculum reform national security education civic and patriotic education the rise of the pro Beijing education elites and interest groups and the revamp of examination questions and examination authority The entire education reform in the HKSAR has pushed the Hong Kong education system toward a process of mainlandization making Hong Kong's education system more similar to the mainland system with emphasis on political correctness in the understanding of Chinese national security history and culture Highlighting the political struggles among the various stakeholders this book is essential for scholars of Hong Kong and China especially those with an interest in the relationship between education and politics *Cracking the Code of Education Reform* Christopher H. Tienken, 2019-08-07 Lead between the lines evaluate Ed policies to emphasize the positives and minimize the negatives Although educational reform is intended for positive change sometimes it misses the mark However when school leaders capitalize on the positive aspects of reforms they can strategize to ensure the best outcomes for students Christopher Tienken professor and international speaker shares his insights on how to identify both positive and negative aspects of education reform to maximize the benefits for students This book introduces a practical framework for interpreting educational reform within an evidence based practice and provides thoughtful ways to finesse results out of challenging policies Designed for use on the ground level this book features Seven specific creative compliance strategies to maximize student and educator success Case studies that illustrate how to critique reforms and take action Reflective questions to guide evaluation and application Ethical decision making checklist Analyzing both successful and unsuccessful reform ideas from the past this book champions creative compliance and how to lead innovatively judiciously

Education Reform Jennifer L. Casper, 2008

Studies of Education Reform Margaret E. Goertz, 1996

Understanding Educational Reform Raymond Horn, 2002-11-05 The only handbook of its kind to bring together materials from a wide range of authoritative works providing the reader with a comprehensive overview of reform in American education Crafted in ten skillfully written chapters Educational Reform covers the history politics and processes of educational reform and addresses reforms in curriculum instruction and assessment Starting with a definition of educational reform and where its far reaching results can lead the work goes on to assess the role of the public in educational reform the educational reform industry and resistance to reform Of interest to school boards and administrators and useful in graduate and undergraduate courses in education it is written in a conversational tone that brings the subject out of the realm of dry

analysis Readers will benefit not only from the numerous case studies that intersperse the themes discussed but also from the extensive bibliography of print and nonprint resources including websites listed for further study There is little doubt that the classroom must change to meet the needs of the 21st century read Educational Reform to learn just how *Education to Build Back Better* Fernando M. Reimers,Uche Amaechi,Alysha Banerji,Margaret Wang,2022-02-09 This open access book examines the implications of the COVID 19 Pandemic for education systems and argues that major education reforms will be necessary particularly in the Global South to address the learning loss caused by the pandemic To inform those reforms knowledge about the implementation reforms in the Global South is necessary and such knowledge is seriously lacking as the existing literature on the implementation of educational change focused principally in reforms in countries in the Global North This book contributes to address this gap by examining five major education reforms in India Egypt Taiwan Vietnam and Senegal and by presenting two novel approaches to climate change education using a bottoms up strategy of reform The chapters examine the implementation process drawing on a theoretical model of educational change by Reimers published in *Educating Students to Improve the World* by Springer in 2020 The book concludes discussing the implementation of such reforms as an evolutionary and learning process characterized by four dimensions the goals of the reform the drivers of the reform the reform strategy and the mindsets about educational change which undergird the implementation strategy

Implementing Educational Reform Colleen McLaughlin,Alan Ruby,2021-11-25 A collection and analysis of eight education reform case studies capturing successes failures and choices faced in implementation *Curriculum Development, Innovation and Reform* Robert White,2014-05-14 This book provides key contributions by leading international researchers and scholars on a range of perspectives related to improving learning outcomes for students across educational settings from the primary years through to university and beyond It will be of interest to school administrators teachers researchers and policy makers who are interested in finding new and innovative ways to meet the needs of learners in the globalized world of the 21st century in culturally competent and meaningful ways Throughout the chapters a common theme of innovation reform and overcoming barriers to learning are highlighted and the reader will gain a considerable knowledge of strategies and techniques to improve learner engagement and outcomes in meaningful and effective ways In addition this book will be of interest to university professors who wish to find a comprehensive reader for teacher preparation courses that provide international perspectives of academics from around the world including the UK USA Australia Norway Kazakhstan and Korea This broad and international perspective also provides a starting point for discussing culture and the role it plays in educational and life outcomes and how educators can become culturally competent in designing delivering and facilitating learning experiences across sectors and around the globe **Curriculum changes in the Visegrad Four: three decades after the fall of communism** Tomáš Janík,?tefan Porubský,Magdolna Chrappán,Kinga Kuszak,2020 School systems in the Visegrad Four countries have gone through significant change since the political upheavals of 1989 The book describes

developments in curriculum and curriculum policy over the last three decades and considers the possible impact and perspectives of current changes It explores the nature of curriculum reform addresses the challenge of its implementation and highlights the reform as a means by which school quality can be improved and as a provider of aims and contents of school education Hopefully the book will contribute to the discussion of options for further curriculum development and curriculum policy in the Visegrad Four and other countries with a similar educational background
