Curriculum Building For Adult Learning:

Curriculum Building for Adult Learning John R. Verduin, 1980 Too often adult education programs falter because those who set them up lack sources to turn to for guidance in planning curricula now John R Verduin Jr provides a framework a general model educators can use for effective curriculum building Verduin s theoretical approach features a curriculum model consisting of five major elements rationale direction philosophical position outside political forces goals instruction and evaluation Each element receives chapter length treatment The discussion is general and the principles derived are broad enough to apply to any adult learning program Verduin s goal is to provide a framework within which the adult educator can make intelligent decisions In the last chapter however he turns from general discussion to specific application of the models constructs and ideas explored in this book Ideas in this chapter should help those involved in adult education make the transition from a theoretical model to actual curriculum work

Understanding And Facilitating Adult Learning Brookfield, Stephen, 1986-06-01 This book provides a critical examination of the myths surrounding adult education and its practice
