Curriculum Models For General Education

Donald R. Cruickshank

Curriculum Models For General Education:

Curriculum Models for General Education George Higginbottom, Richard M. Romano, 1995 Presents eight different general education models from colleges across the US A practical guide and reference for those seeking to reexamine or restructure their programs

Curriculum Models for General Education, New Directions for Community Colleges, Number 92, United States Department of Education, **General Education** Jerry G. Gaff, 1999 The intent of this discussion paper is to provide a survey of emerging trends in general education reform at institutions of higher education Ten themes are identified 1 rethinking the major 2 concern with student learning beyond course content 3 an increased emphasis on diversity 4 the importance of technology 5 efficiency and effectiveness 6 the need for more emphasis on implementation strategies in improving general education 7 new administrative models 8 the necessity of program assessment 9 combining of change initiatives and 10 convergence of two movements one to improve general education and the other concerned with accountability fiscal responsibility and prudent management Contains 48 references DB

Integrated General Education Catherine M. Wehlburg, 2010-04-19 General education has been an essential part of American higher education for a long time Unfortunately it is often seen as something to get out of the way so that the student can go on to take the more important courses within a chosen major This volume changes that perception Topics discussed include Integrated General Education A Brief Look Back Why are Outcomes So Difficult to Achieve Making General Education Matter Structures and Strategies Unifying the Undergraduate Curriculum Through Inquiry Guided Learning University of the Pacific s Bookend Seminars on a Good Society Core Curriculum Revision at TCU How Faculty Created and Are Maintaining the TCU Core Curriculum Creating an Integrative General Education The Bates Experience Building an Integrated Student Learning Outcomes Assessment for General Education Three Case Studies Meaningful General Education Assessment That is Integrated and Transformative Institutions of higher education have a responsibility to develop a meaningful general education curriculum that cultivates qualities of thinking communication and problem solving to name a few of the general education goals that many institutions share What is missing from many institutions though is the concept of integrating general education with the overall educational curriculum If this is done general education courses are no longer something to take quickly so they can be checked off instead they become part of the educational development of the student This integration benefits the student certainly but also the larger society baccalaureate graduates steeped in the liberal arts will become future leaders Having been prepared with a broad knowledge base our current students will be able to think more critically and make good use of information to solve problems that have not yet even been identified This is the 121st volume of the Jossey Bass higher education quarterly report series New Directions for Teaching and Learning which offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers
