Custom Published College Algebra Thru Functions Models:

Algebra Begining Intermediate, Custom Publication Aufmann,2006-09 **Functions, Data and Models** Sheldon P. Gordon,Florence S. Gordon,2010 This is a college algebra level textbook written to provide the kind of mathematical knowledge and experiences that students will need for courses in other fields such as biology chemistry business finance economics and other areas that are heavily dependent on data either from laboratory experiments or from other studies The focus is on the fundamental mathematical concepts and the realistic problem solving via mathematical modeling rather than the development of algebraic skills that might be needed in calculus Functions Data and Models presents college algebra in a way that differs from almost all college algebra books available today Rather than going over material covered in high school courses the Gordons teach something new Students are given an introduction to data analysis and mathematical modeling presented at a level that students with limited algebraic skills can understand The book contains a rich set of exercises many of which use real data Also included are thought experiments or what if questions that are meant to stretch the student s mathematical thinking **Subject Guide to Books in Print** ,2001 Precalculus a Graphing Approach Fourth Edition, Custom Publication Ron Larson,2006-07 *College Algebra* Margaret L. Lial,John Hornsby,David I. Schneider,2000-12
