Custom Published World Civ Volume 1

Robert M. Buffington

Custom Published World Civ Volume 1:

Keen's Latin American Civilization, Volume 1 Robert M. Buffington, 2018-05-04 The tenth edition of Keen's Latin American Civilization inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This first volume retains most of the colonial period sources from the ninth edition but with some significant additions including two new sets of images, representations of Brazilian cannibals and casta paintings of mixed race families, an alternative conquest narrative, two new readings on imperial governance and three new readings on gender and sexuality including selections from the autobiography of a Spanish nun who took on a male persona to fight as a soldier in the American colonies. The 88 excerpts in volume one provide foundational and often riveting first-hand accounts of life in colonial Latin America. Concise introductions for chapters and excerpts provide essential context for understanding the primary sources.

History of Civilization, Vol. 1 Robin W. Winks, Crane Brinton, Robert L. Wolff, 1992

The Fundamental Principles of Old and New World Civilizations Zelia Nuttall, 1901

Ancient Beijing and Western Civilization Zhesheng Ouyang, 2024-10-29 This book explores the historical interactions between Beijing and the West before the Opium War. It focuses on the experiences of Western travellers, missionaries, and envoys who visited Beijing during the Yuan, Ming, and Qing dynasties. As the capital of Imperial China since the Yuan dynasty, Beijing has been central to communication between China and the West. The study uses first-hand historical materials such as travelogues, memoirs, letters, Ming and Qing archives, and scholarly works from both the West and China. It examines their journeys to Beijing, their lives in the city, and their interactions with imperial officials and ordinary people. The book reconstructs Western perceptions of Beijing and their observations of its architecture, customs, geography, and China's history, culture, and political system. It also addresses important historical issues in Sino-Western relations, including the controversy over Chinese rites between Beijing and the Vatican, attempts to trade with Beijing, sinological studies, and intelligence gathering. The insights gained greatly enhance our understanding of the history of cultural exchange between China and the West. The book will appeal to a wide readership interested in the history of the Yuan, Ming, and Qing dynasties, the history of Beijing, Sino-Western relations, and international Sinology.

Classical Readings in Culture and Civilization Stephen Mennell, John F. Rundell, 1998 In recent times, especially under the influence of postmodernism, culture has often been construed as a critique of modernity. This wide-ranging and comprehensive collection of readings shows that such issues have always been at the centre of thought about the relationship between culture and civilization. The readings are divided into three sections linking the civilization debate to political theory, to the cultural debate, and to the sociology and anthropology. The substantial extracts included give students a rare chance to engage at length with classic texts to appreciate the nature of the battle between the Enlightenment and its critics, which has shaped current thought. *Classical Readings on Culture and Civilization* presents essays from Immanuel Kant, Adam Ferguson, Thomas Jefferson, Alexis de Tocqueville, Friedrich von Schiller, Friedrich Nietzsche, Georg Simmel, Thomas Mann, Sigmund
