SIGCSE Technical Symposium on Computer Science Education, 1997 *FPGA-based Implementation of Signal Processing Systems* Roger Woods, John McAllister, Gaye Lightbody, Ying Yi, 2008-10-13 Field programmable gate arrays FPGAs are an increasingly popular technology for implementing digital signal processing DSP systems By allowing designers to create circuit architectures developed for the specific applications high levels of performance can be achieved for many DSP applications providing considerable improvements over conventional microprocessor and dedicated DSP processor solutions The book addresses the key issue in this process specifically the methods and tools needed for the design optimization and implementation of DSP systems in programmable FPGA hardware It presents a review of the leading edge techniques in this field analyzing advanced DSP based design flows for both signal flow graph SFG based and dataflow based implementation system on chip SoC aspects and future trends and challenges for FPGAs The automation of the techniques for component architectural

synthesis computational models and the reduction of energy consumption to help improve FPGA performance are given in detail. Written from a system level design perspective and with a DSP focus, the authors present many practical application examples of complex DSP implementation involving high performance computing, e.g. matrix operations such as matrix multiplication, high speed filtering including finite impulse response (FIR) filters and wave digital filters (WDFs), adaptive filtering, e.g. recursive least squares (RLS) filtering, transforms such as the fast Fourier transform (FFT). FPGA based Implementation of Signal Processing Systems is an important reference for practising engineers and researchers working on the design and development of DSP systems for radio telecommunication, information audio visual and security applications. Senior level electrical and computer engineering graduates taking courses in signal processing or digital signal processing shall also find this volume of interest.
