Advances In Equine Nutrition V 1:

Advances in Equine Nutrition Joe D. Pagan,1998 A compilation of papers from past KER conferences Covering a broad range of topics and containing a wealth of information related to equine nutrition veterinary medicine and exercise physiology Included is a mixture of original research and review material as well as a great deal of practical information about how to feed and manage all types of horses This fully indexed text should prove to be an essential reference for anyone interested in the latest developments in equine nutrition *Evidence Based Equine Nutrition* Teresa Hollands,Lizzie Drury,2023-09-30 This book uniquely provides both the scientific basis of equine nutrition and the translation of that science into practical day to day feeding advice It summarises the latest research to provide readers with the evidence base needed to both confidently advise those who want to understand the science behind equine nutrition and apply that evidence into practical advice for anyone who just wants to know how to feed horses Both veterinary and animal science courses struggle to provide adequate nutrition training within their syllabuses Much of the general information available is poorly explained and not evidence based This book fills that gap with the author team relaying over 50 cumulative years experience teaching equine nutrition to both practising clinicians and students A recommended resource to support the teaching of veterinary nutrition this book should also be found on the bookshelf of all veterinarians animal scientists trainers nutritionists and nutritional advisors

Advances in Equine Nutrition II Raymond J. Geor,Joe D. Pagan,2001 A collection of research and review papers presented at KER conferences featuring international authorities on equine nutrition sports medicine and veterinary topics They have refined nutritional requirements of horses and discovered ways to effectively deliver nutrients for horses in all athletic endeavors to achieve optimal growth in young horses and to ensure nutrient requirements are being fulfilled in reproductively active horses
