J. Rushdoony, Gary North, David Ketchen, Thomas Molnar, Mark Wyndham, Diana Lynn Walzel, F. Seth Dyrness, Jean C. Blasdale, Greg Bahnsen, 2019-03-22 Witchcraft occultism paranormal science and mysticism are growing like plagues in the Western world These phenomena have baffled modern educators and conventional rationalists since such activities seem to be completely opposed to everything that the public schools have taught for over a hundred years Worst of all in the minds of conventional secularists all this discussion of demonic forces may lead to an even more appalling conclusion the idea that God also a supernatural force may reappear in the modern post Christian world At all costs a God who can make himself felt in time and on earth must be avoided Mysticism is one thing totally internalized but supernatural forces are not supposed to have any impact on external so called phenomenal affairs Occultism is another form of humanism It is the product of the quest for power apart from God and His law order It was not a major force in the so called Dark Ages Not until the fifteenth century did witchcraft become a serious problem in Europe and it was the Renaissance not medievalism which sparked the great explosion of demonism and magic in the sixteenth century During the period of the early Middle Ages A D 500 1000 there were practically no signs of witchcraft in Europe Only with the revival of ancient Gnosticism and the invasion of Middle Eastern dualism did signs of widespread witchcraft reappear Occultism and humanism are not sworn enemies they are first cousins It was only the influence of Christian principles which laid such stress on the orderliness of God's universe that made possible the confidence of modern rationalists in denying the influence of supernatural forces As the confidence in creation law has waned in this century rational humanism has become increasingly unsuccessful in retarding the expansion of occult humanism This Journal of Christian Reconstruction offers readers the necessary evidence for a refutation of the familiar charge that occultism and religion necessarily go together and that only a hard headed rationalism can restrain the forces of spiritual anarchy Far from retarding occultism modern rationalism's blindness to the reality of occult forces is now creating a perverse inquisitiveness on the part of modernism's children who have learned to be critical of everything including old fashioned rationalism The philosophy of the open universe closed to God has produced the new occult experimentalism If anything except Christian orthodoxy might be true why not find out through personal observation and experiment Since 1965 the Western world has

faced the greatest explosion of occultism that it has seen in three hundred years This time no one can blame orthodox Christianity it has been the secularists who have wielded the power **Jewish Christians in Puritan England** Aidan Cottrell-Boyce,2022-11-24 Among the proliferation of Protestant sects across England in the seventeenth century a remarkable number began adopting demonstratively Jewish ritual practices From circumcision to Sabbath keeping and dietary laws their actions led these movements were labelled by their contemporaries as Judaizers with various motives proposed Were these Judaizing steps an excrescence of over exuberant biblicism Were they a by product of Protestant apocalyptic tendencies Were they a response to the changing status of Jews in Europe In **Jewish Christians in Puritan England** Aidan Cottrell Boyce shows that it was instead another aspect of Puritanism that led to this behaviour the need to be recognised as a singular positively distinctive Godly minority This quest for demonstrable uniqueness as a form of assurance united the Judaizing groups with other Protestant movements while the depiction of Judaism in Christian rhetoric at the time made them a peculiarly ideal model upon which to base the marks of their salvation [The History of Oneida County](#) ,1977

[The Unknown Prophet](#) Delbert W Baker,2013-09-10 More than 25 years ago society was introduced to William Ellis Foy Foy was an African American minister of the nineteenth century whom historical records had generally overlooked The popular book [The Unknown Prophet](#) demonstrated that Foy received powerful revelations from God about coming tribulation judgment and heaven awaiting those who were faithful to God Foy s message was straightforward be faithful because Jesus is coming again The groundbreaking research in [The Unknown Prophet](#) did much to clear up misconceptions and set the record straight about William Foy It told the largely unknown story of this sensitive young man of color Furthermore he faced incredible trials and struggles yet faithfully fulfilled his time specific prophetic commission during the height of the Millerite movement and went on to maintain a quiet and productive ministry until his death in the late 1800s William Foy s story his ministry and message still speaks today This second edition is the response to a desire for an updated version providing hope and encouragement for the twenty first century reader It contains new and valuable documents and images including the only known photo of William Foy s son Your faith will be enriched as you read these pages **The Publishers' Trade List Annual** ,1978

Politics in Color and Concrete Krisztina Fehérváry,2021-12-22 A historical anthropology of material transformations of homes in Hungary from the 1950s o the 1990s Material culture in Eastern Europe under state socialism is remembered as uniformly gray shabby and monotonous the worst of postwar modernist architecture and design **Politics in Color and Concrete** revisits this history by exploring domestic space in Hungary from the 1950s through the 1990s and reconstructs the multi textured and politicized aesthetics of daily life through the objects spaces and colors that made up this lived environment Krisztina F herv ry shows that contemporary standards of living and ideas about normalcy have roots in late socialist consumer culture and are not merely products of postsocialist transitions or neoliberalism This engaging study decenters conventional perspectives on consumer capitalism home ownership and citizenship in the new Europe A major
