## **Advanced Php For Flash:**

**Advanced PHP for Flash** Steve Webster, Frank Rice, James Dean Palmer, Kev Sutherland, Todd Marks, Jacob Hanson, Harvard Eide, 2013-11-11 Advanced PHP for Flash is the follow up to the hugely popular Foundation PHP for Flash The main aim of this book is to extend the reader's knowledge of using PHP and MySQL to produce dynamic content for Flash Essentially it picks up the baton from the first book and runs with it until there's no more road The book takes the reader from being an intermediate to an advanced PHP Flash developer and helps them create some awesome Flash based web applications along the way It covers the core PHP features as well as some exciting extras that follow on directly from the knowledge gained in the first chapter and show the reader how to use them in real world applications This book covers Sessions File Uploading Advanced MySQL Socket Functions PHP and XML Ming Plus fully functional case studies This book is aimed squarely at those readers who want to create dynamic Flash based web applications and especially at those who have finished the first book and are hungry for more As this book is pitched at those with an intermediate knowledge of PHP and a decent grasp of MySQL it has the advantage of being useful to both programmers and those coming over from the first book

**Flash .NET** Gerald YardFace, David Neal, Pallav Nadhani, Graeme Bull, Chris Bizzell, 2013-12-14 The absolute cutting edge for application development at the moment is using Macromedia's Flash MX the premier software for designing fantastic looking interfaces with Microsoft's .NET framework tremendously powerful server side technology Combining these technologies has been greatly aided by the release of Macromedia's Flash Remoting MX which is covered fully in this book Designers and developers involved in the creation of this technology impart their knowledge to you in this book through extensive case studies Flash Remoting is not the only way to combine these technologies however so this book will fully cover Flash .NET integration using ASP .NET This book is for readers who are looking to integrate their Flash movies with a .NET enabled back end It assumes no prior knowledge of server side technologies but does require knowledge of Flash MX and ActionScript

**Foundation Flash MX Applications** Steve Webster, Scott Mebberson, 2013-11-09 This book provides the richest and most solid introduction to the exciting world of Flash applications which are becoming increasingly popular as ways of presenting visually rich interfaces to useful data and services Foundation Flash MX Applications supplies you with the knowledge techniques and skills that you need to help you plan develop and build Flash based applications that you can deploy on the Web In true Foundation series style this book uses step by step exercises and a running case study to build skills that you can then apply to any Flash application you create The emphasis in this book is on the generic skills and approaches that are essential in this field rather than on shallow walk throughs of trivial projects You'll come away from this book with a deeper understanding of the issues architectural technical process related design oriented that are key to developing successful Flash applications for the Web This is the only book on the market that focuses on generic transferable skills that are taught using a case study that'll really drive the learning home If you want to really understand this subject

then this is the book for you To get the most out of this book we recommend that you already have a grasp of the Flash MX interface as well as some ActionScript experience Topics include A full length case study creating a dynamic Flash message board application Designing usable scalable and interactive Flash based applications Deploying XML for client server communication Using PHP as an intermediary between XML and back end data storage The MySQL database

**Byte-Size Flash MX** Keith Peters,Cody Lindley,Kip Parker,Genevive Garand,David Hirmes,Roy Tanck,Robert Reich,2013-11-11 Have you ever poured all your creativity into a Flash movie but found your friends grumbling at the download size Have you tried to use just one tiny picture in your movie and seen the file size go through the roof Is it possible to do anything remotely effective in a small file More than you could possibly imagine This collection shows you just exactly what can be done with tiny Flash files using some of the hottest Flash designers around These authors pull designs out of the top drawer and show you exactly how you can go about creating great SWFs with the smallest amount of download pain We will look at creating incredible generative designs so small you can use them for wallpaper producing 3D animations that roll in at under 5k in size creating sound toys in the smallest possible file space de mystifying the use of JPEGs and photographs while keeping your Flash movies small strategic use of back end technology to keep your delivery times down to nanoseconds changing the boundaries to look at new ways of delivering entire sites From the Publisher Who is this book for You ve worked with Flash but are wondering why people are getting tetchy at the download time You re willing to start learning some ActionScript tricks to fight the file flab and you re not afraid to become addicted to optimization About the Author Genevieve Garand Conceived 3weeksinApril com an experimental web site that explores new ways of navigation and features an engaging narrative David Hirmes is a Flash developer living in Brooklyn New York Kip Parker Works through his own company Hi Rise Limited and in collaboration with Anthony Burrill as Friendchip which was established in 1998 Keith Peters Found Flash to be the ideal medium for creating graphics with code Robert Reich lives in Hamburg Germany Flash became his favourite besides normal HTML and serverside driven website creation He is working as freelancer for several firms Roy Tanck Currently employed in Hilversum as part of a team that creates innovative e learning solutions Within this environment Flash is a great tool

**Foundation Dreamweaver MX** Craig Grannell,Jerome Turner,Matt Stephens,George McLachlan,Todd Marks,2013-11-11 Macromedia Dreamweaver MX merges the faultless visual layout tools of Dreamweaver and the powerful yet easy to use database integration offered by UltraDev into a product that is simply the most vital piece of software any web designer can own Unlike many other books Foundation Dreamweaver MX concentrates on both sides of this alliance looking to the future No matter what your background this book will give you a solid foundation in graphic design and layout issues as well as a full grounding in the powerful database integration features that Dreamweaver MX offers The truth is that database integration is no more of an extra in today s climate than faultless visual design and this book is here to guide you through this new world covering dynamic scripting with PHP and the popular MySQL database This book is suitable for both

PC and Mac OS X needed platforms Whether a complete novice or a past user after reading this book you'll be fluent in the full breadth of Dreamweaver MX's powerful functionality a unique learning curve backed up by solid real world case studies and tutorials What this book covers Site design and layout principles Using templates and Cascading Style Sheets to create advanced site designs Adding interactivity to pages with script Setting up PHP and MySQL to create powerful dynamic database driven applications Dreamweaver MX makes this all possible and Foundation Dreamweaver MX makes it easier than you could have imagined December 2002 Macromedia has released an update available for download which addresses a number of issues in Dreamweaver MX including compatibility with Macromedia Contribute **Advanced PHP**
