Echols, Hassan Shadily, John U. Wolff, 1989 This dictionary is meant primarily as a tool for English speakers who need to know Indonesian and who deal with Indonesian writings The aim has thus been to give comprehensive coverage to forms a foreigner might run across in Indonesian readings from this era or from the past but excluding classical Malay literature Much of the Indonesian written production written and otherwise contains slangy colloquial and regional forms and we have not excluded such forms On the other hand we have confined the listing of dialectical forms only to those likely to be widely known The dictionary should also be useful to Indonesians who wish to learn English equivalents of Indonesian words but it has not been developed primarily for that purpose because many English words can only be defined by a sequence of Indonesian words from Introduction      A *Comprehensive Indonesian-English Dictionary* Alan M. identity and the perception of World Englishes Employing a mixed methods approach the study was carried out at nine public and private universities with differing religious viewpoints namely secular Catholic and Islamic There are five different groups of participants for individual interviews and questionnaire surveys students English language lecturers non English lecturers and leaders at each of the nine universities The results reveal that English is viewed as a tool and asset for advancing knowledge facilitating international communication gaining global competitiveness and improving employment opportunities However perceived tensions between English and Indonesian constantly occur throughout all facets of the study Even though Indonesian people s repository of cultural identity Tan and Rubdy 2008 p 5 is located within local languages rather than in Indonesian as the national language the Indonesian language actually unites them as one people and differentiates them from people of other nations This suggests a demand for a contemporary global linguistic ecology Phillipson and Skutnabb Kangas 1999 p 20 In such ecology English would keep developing in a way that does not impact negatively on the national language Indeed such demand for a balance between English and Indonesian is politically desirable
