You don't wake up from noises in your sleep

You can turn off your hearing aids or cochlear implant whenever you want and have peace

You have better peripheral vision to see everything around

In the countryside, you are not bothered by the sounds of animals such as crickets or roosters

You don't have to listen to the discussions of the hearing people

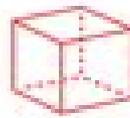

You have better body language skills and detect reactions that no one sees

External noises do not interrupt you while you are making love

If you have a migraine, the noises won't stop you from resting

You have higher mental rotation skills

You can easily watch films with subtitles

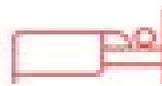

You can communicate in sign language with your dog or cat

Sign language is perfect for very noisy or very quiet environments

You can ignore those annoying advertising phone calls
