

A scenic landscape at sunset or sunrise. The sky is a warm, golden-orange color, and the sun is visible on the right side, casting a bright glow. The foreground and middle ground show rolling hills and mountains in silhouette, with a valley in the distance. The overall mood is peaceful and contemplative.

I must learn to be content with
being happier than I deserve.

Being Happier:

BEING HAPPIER Stella Frances, 2019-03-22 Have you ever met someone that didn't want more happiness? The pursuit of happiness seems to be an ongoing quest for most people. Luckily, finding happiness might be much easier than you think. Many times, simple solutions can be effective. Learn the tools and strategies that will bring more happiness into your life. Living In The Moment, Choosing Conscious Living, Feeling and Showing your Gratitude, Over Delivering on your Promises, Using Mind Tools to Change your Life. Increasing the level of happiness in your life can be very simple when you have the right tools. Inside this book, you will find an informative guide and an empowering workbook that will help you add a few of these items to your life each day and measure the results. Being happier doesn't have to be complicated. Many of the best things in life are simple and free.

Be Happier in One Hour D.E. Hardesty, 2015-04-06 This book teaches you how to be happier in one hour so that you can start enjoying better relationships, better health, more success, and a longer life, all from learning how to be happier. This book shows you how you can be happier right now without anything else changing in your life. This is the second book by D E Hardesty, author of *Finding Your Power to Be Happy*. Seven Practices to Bring Unconditional Happiness into Your Life. In this book, the author reduces his seven practices for happiness into a book that can be read in an hour. Included in this book are simple exercises to start these practices immediately. At the end of an hour, anyone who reads this book and tries the exercises can be happier. The premise of this book and his first book is that happiness is natural to us. It is already inside of us, waiting to be released. We only have to turn our attention to it. Like a light switch, we only have to learn to turn it on and keep it turned on. Real happiness does not depend on the circumstances of your life. You can be happier right now without anything changing in your life. If everything in your life is going great, you can be happy. If everything in your life is going wrong, you can be happy. Rich, poor, old, young, male, female, blue collar, white collar, pink collar, no collar, you can be happy. Learning to be happy may be the most important thing we can do in life. It may even be the purpose in life. What psychologists have found is that compared to those who are not happy, happy people have better relationships and better health; they are more successful and they live longer. Children are born happy and we expect to see them playing and being happy. We do not expect so much happiness when we leave childhood. However, the power to be naturally happy that we knew as children is still there; it never left. This aim of this book is to help you find it again.
