

# Being Black, Living in the Red

RACE, WEALTH, AND SOCIAL POLICY IN AMERICA

"...the best contribution to the race-class debate in the past two decades."

WILLIAM JULIUS WELSON

# Being Black Living In The Red

**Daria Roithmayr**

## **Being Black Living In The Red:**

Being Black, Living in the Red Dalton Conley, 1999-06 Being Black Living in the Red is an important book In Conley s persuasive analysis the locus of current racial inequality resides in class and property relations not in the labor market This carefully written and meticulous book not only provides a compelling explanation of the black white wealth differential it also represents the best contribution to the race class debate in the past two decades William Julius Wilson author of When Work Disappears The World of the New Urban Poor In Being Black Living in the Red Dalton Conley has taken the discussion of race and inequality into important new territory Even as income inequality is shrinking Conley shows the wealth gap endures That gap he argues lucidly explains much of the persisting two societies phenomenon it contributes significantly to inequalities in education work even family structure Those concerned about equity in America will find this book indispensable reading David Kirp author of Our Town Race Housing and the Soul of America With methodological sophistication Dalton Conley s well written book makes a significant contribution to our understanding of the precarious social and economic predicament that African Americans continue to experience Martin Sanchez Jankowski author of City Bound Urban Life and Political Attitudes Among Chicano Youth Picking up where Oliver and Shapiro Black Wealth White Wealth left off Conley details how and why facets of net worth cascade into long term inequalities All sides will be impressed with Conley s thorough scholarship and richly detailed analysis Troy Duster co editor of Cultural Perspectives on Biological Knowledge Being Black Living in the Red is the most convincing analysis yet of the importance of wealth for the life chances of African Americans Thanks to Conley s stunning data and adroit theoretical discussions social scientists and policymakers can no longer ignore wealth as they attempt to deal with the thorny issue of racial inequality A must read Melvin L Oliver author of Black Wealth White Wealth A New Perspective on Racial Inequality Race, Class, and Gender in the United States Paula S. Rothenberg, 2007 This book undertakes the study of issues of race gender and sexuality within the context of class Pref **Unfit Subjects** Wanda S. Pillow, 2004 Wanda Pillow offers an in depth examination of how schools are providing and failing to provide educational opportunities for school aged mothers in America *Reproducing Racism* Daria Roithmayr, 2014-01-20 Argues that racial inequality reproduces itself automatically over time because early unfair advantage for whites has paved the way for continuing advantage This book is designed to change the way we think about racial inequality Long after the passage of civil rights laws blacks and Latinos possess barely a nickel of wealth for every dollar that whites have Why have we made so little progress Legal scholar Daria Roithmayr provocatively argues that racial inequality lives on because white advantage functions as a powerful self reinforcing monopoly reproducing itself automatically from generation to generation even in the absence of intentional discrimination Drawing on work in antitrust law and a range of other disciplines Roithmayr brilliantly compares the dynamics of white advantage to the unfair tactics of giants like AT T and Microsoft With penetrating insight Roithmayr locates the engine of white monopoly in positive feedback loops that connect

the dramatic disparity of Jim Crow to modern racial gaps in jobs housing and education Wealthy white neighborhoods fund public schools that then turn out wealthy white neighbors Whites with lucrative jobs informally refer their friends who refer their friends and so on Roithmayr concludes that racial inequality might now be locked in place unless policymakers immediately take drastic steps to dismantle this oppressive system Being Black, Living in the Red Dalton Clark Conley,1996 *Protecting Our Own* Katheryn Russell-Brown,2006 Inspired by the O J Simpson case *Protecting Our Own* explores the reasons behind the rise of the black protectionism phenomenon and its implications for the future Comparing the plight of the African American community to the melancholy lyrics but vibrant beat of the blues Russell Brown uses the lyrics of these songs to paint a vivid picture of the African American community struggling through the burdens of racial oppression such as second tier status and lynchings solely due to the color of their skins Russell Brown explains the feelings of protectionism towards African American celebrities as many African Americans feel that they have to protect their own because no one else will Many African Americans Russell Brown argues feel that African American are still under siege and that the few lucky African Americans who find a way into the spotlight deserve a break However with more and more African Americans in the spotlight this practice has new consequences *Protecting Our Own* considers these issues in detail The book sets out to accomplish three goals to define Black protectionism to explain how it works and how it can be reformulated to work in the best interests of the African American community The book uses cases such as the infamous O J Simpson case to illustrate and explain the motivations behind black protectionism even if the defendant is accused of grievous moral and ethical wrongdoing Russell Brown criticizes the use of black protectionism as a knee jerk reaction and expresses the need to hold African American celebrities accountable for their misdeeds She suggests a selective approach to black protectionism that will benefit the African American community at large rather than just a lucky few This book praises black protectionism at its best a fight that will ensure racial justice in the future **Won't You Be My Neighbor** Camille Zubrinsky Charles,2006-10-19 Los Angeles is a city of delicate racial and ethnic balance As evidenced by the 1965 Watts violence the 1992 Rodney King riots and this year s award winning film *Crash* the city s myriad racial groups coexist uneasily together often on the brink of confrontation In fact Los Angeles is highly segregated with racial and ethnic groups clustered in homogeneous neighborhoods These residential groupings have profound effects on the economic well being and quality of life of residents dictating which jobs they can access which social networks they can tap in to and which schools they attend In *Won't You Be My Neighbor* sociologist Camille Zubrinsky Charles explores how modern racial attitudes shape and are shaped by the places in which people live Using in depth survey data and information from focus groups with members of L A s largest racial and ethnic groups *Won't You Be My Neighbor* explores why Los Angeles remains a segregated city Charles finds that people of all backgrounds prefer both racial integration and a critical mass of same race neighbors When asked to reveal their preferred level of racial integration people of all races show a clear and consistent order of preference with

whites considered the most highly desired neighbors and blacks the least desirable This is even true among recent immigrants who have little experience with American race relations Charles finds that these preferences which are driven primarily by racial prejudice and minority group fears of white hostility taken together with financial considerations strongly affect people s decisions about where they live Still Charles offers reasons for optimism over time and with increased exposure to other racial and ethnic groups people show an increased willingness to live with neighbors of other races In a racially and ethnically diverse city segregated neighborhoods can foster distrust reinforce stereotypes and agitate inter group tensions Won t You Be My Neighbor zeroes in on segregated neighborhoods to provide a compelling examination of the way contemporary racial attitudes shape and are shaped by the places where we live
