Being The Camel:

The Children of the East. Being the Children's Chapter from the Women of the Arabs Henry Harris JESSUP,1874

Labour Migration, Human Trafficking and Multinational Corporations Ato Quayson,Antonela Arhin,2013-06-19

Although much literature on human trafficking focuses on sex trafficking a great deal of human trafficking results from migrant workers compelled by economic deprivation in their home countries to seek better life opportunities abroad especially in agriculture construction and domestic work Such labour migration is sometimes legal and well managed but sometimes not so with migrant workers frequently threatened or coerced into entering debt bondage arrangements and ending up working in forced labour situations producing goods for illicit markets This book fills a substantial gap in the existing literature given that labour trafficking is a much more subtle form of exploitation than sex trafficking It discusses how far large multinational corporations are involved whether intentionally or unintentionally in human trafficking for the purposes of labour exploitation They explore how far corporations are driven to seek cheap labour by the need to remain commercially competitive and examine how the problem often lies with corporations subcontractors who are not as well controlled as they might be The essays in the volume also outline and assess measures being taken by governments and international agencies to eradicate the problem

From fitting wheels to wheelbarrows in a builders merchant Brian rapidly climbed the business ladder and became a Xerox salesman He was unaware that the professional selling skills he was learning would one day propel him into the glamorous and overtly commercial world of F1 A disastrous debut at a racing driver school was the spark that lit his passion for motor racing Aware of the need for some serious financial backing to be able to take part Brian embarked on a variety of highly innovative and often extremely entertaining ways of securing sponsorship including working with the cast of a top 1970s BBC sit com as well as with John Cleese of Monty Python fame A chance meeting on a plane with Max Mosley offered an opportunity of managing one of the most popular F1 Grand Prix circuits This in turn led to the heady heights of a factory drive for Mercedes and the establishment of South Africa s first racing driver school It was only a matter of time before Brian s exceptional sponsorship acquisition skills took him to F1 where he quickly made a name for himself by securing multi million pound deals with three of the most sought after global corporations However Brian s greatest achievement in motorsport was to establish the Motorsport Industry Association in 1994 in a bid to secure government recognition of the industry in its own right Once again Brian s sales skills played a key role Without ever becoming a household name as a motor racing champion Brian s story of how he most definitely became a winner is not only inspirational but highly entertaining amusing often irreverent and informative You Don t Have to Be a Champion to Be a Winner is the story of Brian Sims who left school in 1963 with just 5 GCE O Levels and a shattered dream of following in his father s footsteps as a Royal Air Force pilot **Parliamentary Debates** New South Wales.
