Special Committee on Investigation of the Election in Florida,1877 *Grassroots Constitutionalism* Norman W. Provizer,William D. Pederson,1988-11-02 This volume reflects the spirit of the 200th anniversary of the drafting of the constitution with an added twist The authors look at the constitution and the constitutional system through the lenses of a particular community The study emphasizes the two way flow that exists between local situations and constitutional decision making at the national level Along with studies examining the community impact of court rulings other essays explore local events that have turned into constitutional issues for the nation in particular The Herold School prayer case the Shreveport Rate case the post traumatic stress disorder case and the Grosjean freedom of press decision While Part III deals with such cases and policies Part II looks at the judges who combine national and local perspectives and who serve the connectors in this two way system Part I and IV in turn provide a variety of articles that are aimed at fleshing out the constitutional connection along both specific and general lines This framework could be applied with value to any number of the communities In each case this view from the grassroots offers the opportunity to develop fresh insights into old subjects and to provide a closer sense of community involvement with the constitutional system that the nation justly celebrates **From Ballot to Bench** Philip L. Dubois,2014-07-03 Over several decades many U S states abandoned the practice of selecting their judges by direct popular election and adopted the Missouri Plan of judicial selection In *From Ballot to Bench* Philip L Dubois subjects the various criticisms raised against judicial elections to a more searching scrutiny than previously has been attempted Dubois carefully reviews the three central counts on which judicial elections have been faulted for lowering the quality of the bench for impairing judicial independence and for failing to secure judicial accountability After concluding that the potential for judicial elections to hold judges popularly accountable is what might commend them over alternative selection methods Dubois concentrates on the analysis of empirical evidence to evaluate judicial elections as mechanisms of accountability The study examines all the statewide partisan and nonpartisan elections for state supreme court justices in non southern states from 1948 to 1974 Included is a detailed examination of voter participation electoral competition the behavior of judicial electorates and the patterns of gubernatorial vacancy appointments An analysis of decision making on eight state supreme courts also tests the relationship between different selection systems and judicial behavior Dubois finds that partisan elections maximize voter participation meaningfully structure voter choices minimize accession to the bench by appointment and allow popular control over gubernatorial appointments Additional evidence on the extent of partisan voting by judges

selected under different methods leads Dubois to conclude that partisan elections are superior to both nonpartisan elections and nonelective selection methods as instruments of accountability The importance of the questions addressed the breadth of the data collected and the unorthodox conclusions offered make this a significant book for political scientists judges lawyers and public officials Chicago Commerce ,1911 Debates in the Massachusetts Constitutional Convention, 1917-1918: Chapters I to XV Massachusetts.
