Cruel And Unusual Intuition:

Intuitions of Justice and the Utility of Desert Paul H. Robinson,2013-05-23 Research suggests that people of all demographics have nuanced and sophisticated notions of justice Intuitions of Justice and the Utility of Desert sketches the contours of a wide range of lay judgments of justice touching many if not most of the issues that penal code drafters or policy makers must face

Virtuous Thoughts: The Philosophy of Ernest Sosa John Turri,2013-03-14 This collection is a major contribution to the understanding and evaluation of Ernest Sosa s profound and wide ranging philosophy in epistemology and beyond A balanced fair and critical volume it offers a sensitive appreciation of his wide philosophical purview a nuanced assessment of the detail of his thought and a spur to exploring the linkages between the varied topics explored by the subtle mind of this great American scholar The papers explore a wealth of Sosa s academic interests including his work on philosophical method the philosophy of mind and language metaphysics and value theory in addition to his output on epistemology itself It offers for example a rebuttal of the counterarguments to Sosa s reliabilist theory of introspective justification which itself concludes with some objections to Sosa s stated views on the speckled hen problem Other authors track the connections of his virtue theory to his advocacy of bi level epistemology provide reflections on Sosa s views on the epistemological tradition and examine the nexus of his beliefs on intuition and philosophical methodology This volume is an insightful reckoning of Sosa s academic account

Commonsense Justice Norman J. FINKEL,Norman J Finkel,2009-06-30 For the first time in our history U S prisons house over a million inmates enough to populate a city larger than San Francisco Building prisons is the new growth industry as the American public reacts to a perceived increase in

violence and politicians take a hard line toward crime But this eagerness to construct more prisons raises basic questions about what the community wants and will tolerate and what the Supreme Court will sanction In this timely book Norman Finkel looks at the relationship between the law on the books as set down in the Constitution and developed in cases and decisions and what he calls commonsense justice the ordinary citizen s notions of what is just and fair Law is an essentially human endeavor a collection of psychological theories about why people think feel and behave as they do and when and why we should find some of them blameworthy and punishable But is it independent of community sentiment as some would contend Or as Finkel suggests do juries bring the community s judgment to bear on the moral blameworthiness of the defendant When jurors decide that the law is unfair or the punishment inappropriate for a particular defendant they have sometimes nullified the law Nullification represents the jury s desire not to defeat but to perfect and complete the law It is the no confidence vote of commonsense justice refusing to follow the path the law has marked out and pointing to a new path based on what seem to be more just grounds Finkel brings to life the story behind the jury and judicial decisions interweaving anecdotes case law and social science research to present a balanced and comprehensive view of important legal and social policy issues

Capital Punishment in America Evan Mandery,2011-02-28 This revised and updated second edition is an overview of capital punishment It offers an examination of the death penalty supported by statistics and Supreme Court cases and followed by pro and con discussions The book addresses every major issue relating to the death penalty including deterrence racial impact arbitrariness its use on special populations and methods of execution This text challenges students to evaluate their beliefs and assumptions on each of the various issues surrounding this controversial subject Each chapter begins with a primer of the issue to be discussed followed by the data and critical documents necessary to make an educated assessment and concludes with essays that offer differing viewpoints by some of the best minds in the country New material added to the second edition includes updated data on deterrence new data and articles on brutalization and cost new cases and articles on the death penalty for juveniles new case and articles on the death penalty for raping a child and a new chapter on methods of execution
