The Protection of Foreign Investments in Mongolia Bajar Scharaw, 2017-11-07 This book analyses the adequacy of Mongolia's legal system for foreign investment protection by conducting a multi level assessment of international investment treaties domestic legislation of the host State and investor State contracts from an international comparative perspective The investigation distinguishes between three legal dimensions each of which offers both substantive legal guarantees for the protection of investments in the host State and provisions for the settlement of investment disputes by arbitration In the first dimension of Public International Law PIL Mongolia is bound by international investment treaties which offer investors an international law setting In the second dimension a special domestic investment law defines the domestic framework for the establishment promotion and protection of investments but also for the conclusion of investor State contracts These contracts in turn open a third legal dimension which represents a cross section through the PIL and domestic law dimensions of investment protection Following the development of a multi level system with legal dimensions that are not isolated but rather interrelated and mutually reinforcing the book examines whether Mongolia's international investment treaties and domestic investment law reflect globally shared international and domestic standards of treatment and protection of foreign investments Lastly the author inquires whether the domestic laws applicable to investor State contracts in Mongolia allow investors and the Mongolian Government to agree on protective terms according to the not uncontroversial standards of international contract practice

Comecon J. J. Brine, 1992

Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon's history structure and law socialist economic integration the organization's arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital in appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to
