**The Shadow War** Brandon J. Weichert, 2023-07-25 Is peace with the Islamic Republic of Iran possible There has been an ongoing shadow war between the West and Iran one that could explode and plunge the world into a third world war The Biden Administration s move to make peace at any cost with the mad mullahs of Iran may be the very spark for a regional war that turns into a global conflict the likes of which not seen since the 1940s As the Biden Administration pines for a return to the ill fated Iran nuclear deal Tehran makes ready to consolidate its growing power in the Middle East at America s expense For the last decade Iran has consistently expanded its own reach and influence across the region all while judiciously building up its military capabilities As America looks for a way out of the Middle East and a return to the Obama era nuclear agreement Iran enhances the ability of its terrorist proxies like Hezbollah in Lebanon or the Houthis in Yemen to threaten the security of Israel and to destabilize the Saudi regime Each time the Biden Administration signals its willingness to negotiate with Iran Iran gets more aggressive In the words of one Saudi official Iran is a paper tiger with steel claws These steel claws have extended to encompass the whole region and they include Iran s growing arsenal of complex drones precision guided munitions EMP weapons and their nuclear weapons arsenal Thankfully there is a path forward for the United States and the solution can be found in the policies outlined by the previous Trump Administration in the form of the Abraham Accords and daring maximum pressure campaign against Iran But time is not on America s side Should President Biden continue down the destructive illusory path to peace with Iran he will not only have abandoned America s long standing allies but he will have also helped to trigger the very conflict he seeks to avoid After all as Ronald Reagan once quipped world wars do not start because America is too strong They start because the United States is deemed too weak by its rivals In *The Shadow War Iran s Quest for Supremacy* author Brandon Weichert explores how the next world war is unfolding right before our eyes and explains how the American government can avoid it while maintaining its position of strength and support for its allies
