**The World Beneath Our Feet** James B. Nardi, 2003 Uncovering a secret world teeming with life The World Beneath Our Feet profiles more than 100 creatures that live and work in ordinary everyday dirt describing a veritable underground empire just below our feet From the smallest of bacteria to the denizens of the duff such as gophers and groundhogs each entry includes an elegant drawing of the subject a fact box containing scientific statistics and an essay about the life role and curious features of the creature The 25 page goings on in the ground section introduces the reader to soil what it is how it supports life how it evolved and why it wears out and provides a context with which to understand how and why it needs the decomposing and recycling skills of animals Appendixes discuss erosion and the dos and don'ts of composting including how to build a compost center in your backyard Backmatter includes a glossary of earth related terms websites further reading and an index
