Crusaders and Crusading in the Twelfth Century Giles Constable, 2008 This volume brings together revised and up dated versions of Giles Constable s classic essays on crusading in the 12th century along with two major new studies on the cross of the crusaders and the Fourth Crusade and two excursuses on the terminology of crusading and the numbering of the crusades Together they show the range and depth of the crusading movement at that time and its influence on the broader history of the period

Trade, Commodities and Shipping in the Medieval Mediterranean David Jacoby, 2024-10-28 This fourth collection by David Jacoby focuses on Western economic expansion the Eastern Mediterranean during the 11th 15th centuries He is concerned to emphasize the interconnections linking the West Byzantium and the Levant and to examine normative sources for commercial activity charters etc against the background of actual practice such as reflected in notarial documents The articles deal with the evolution of urban centres the trade in raw materials and at the same time questions of technology transfer and the mobility of merchants and craftsmen Particular attention is given to the silk trade the author argues that demographic expansion in the Byzantine world as in the West stimulated economic growth and demand for silk led to the emergence of a market driven industry in Byzantium

Fortification and Settlement in Crusader Palestine Denys Pringle, 2023-06-14 These studies examine the physical remains of Frankish settlement in Palestine in the 12th and 13th centuries In recent years the view that Frankish settlement was largely confined to the fortified urban centres and castles with few westerners venturing into the open countryside has come to be challenged in the light of new archaeological evidence and re examination of the sources The present studies contribute to an understanding of the nature of Frankish settlement by illustrating aspects of the relationship between fortification and settlement in particular the role of castles and towers in promoting settlement and providing both security and domestic accommodation the relationship between castles towers and other semi fortified rural structures the physical planning of the new towns established by the canons of the Holy Sepulchre the measures undertaken to defend urban settlements and the contribution that town walls and castles made to the security of the kingdom

The Templars Edward Burman, 1988-12 The author tells of the extraordinary organization of warrior monks who came to power during the Crusades their wealth and power the reasons for their downfall and their passage into myth and legend

Cultures of the Medieval Kingdom of Jerusalem Benjamin Z. Kedar, 2025-08-15 Cultures of the Medieval Kingdom of Jerusalem is a revelatory portrait of the Frankish Levant at the time of the Crusades Following victory in the First Crusade in 1099 the newcomers from Europe or Franks ruled a Christian kingdom in Jerusalem then Acre until 1291 Historians have written off this kingdom

as a derivative cultural backwater In this new social and cultural history however Benjamin Z Kedar uncovers the striking inventiveness of the Frankish clerics and knights who settled in the kingdom and lived in it Across an array of languages and archives from textual and artistic to material and archaeological Kedar maps the contours of the kingdom s culture or more accurately its cultures The Kingdom of Jerusalem was small but the diversity of its population had no counterpart anywhere in the medieval West Kedar explores how Franks eastern Christians Muslims Jews and Samaritans lived side by side in contentious times each group developing or preserving its specific culture Through stories of the lives of the kingdom s inhabitants Kedar presents the remarkable creativity of the Franks in various fields as they faced challenges in new surroundings thousands of miles from their countries of origin Cultures of the Medieval Kingdom of Jerusalem the culmination of Kedar s half century of scholarship on the Crusades and the medieval Levant is an innovative history of the Kingdom of Jerusalem

Becoming Arab Yossef Rapoport, 2025-11-18 How late medieval Middle Eastern peasants adopted Arab cultural identities and formed village clans During the later Middle Ages peasants in Egypt and Greater Syria came to view themselves as members of Arab clans that had originated in the Arabian Peninsula They expressed their Arab identity by wearing Arab headgear adopting an Arab dialect and circulating a new genre of popular epic that told heroic tales of pre Islamic Arabia In Becoming Arab Yossef Rapoport argues that this proliferation of Arab village clans did not come about through mass migration and displacement but reflected an internal transformation Drawing on extensive documentary literary administrative and material evidence Rapoport shows that the widespread formation of Arab village clans in late medieval Egypt and Greater Syria was a gradual process the result of mass rural conversion to Islam and a new landholding regime in which peasants shifted from being landowners to being tenants After the eleventh century Rapoport contends Middle Eastern villagers were turning Arab These Arab village clans were not merely administrative regimes imposed from above villagers enthusiastically embraced their new identities New converts to Islam adopted Arab lineages to claim status and as a counter identity to urban based Turkish elites Arab identity was used by clans to mobilize rural uprisings against the ruling sultans and to resolve disputes among villagers Challenging traditional historiography of the Middle East which views Arab clansmen as pastoralists whose identity separated them from that of the wider peasantry Rapoport argues that the pervasive establishment of Arab village clans was the most important development in the history of the Middle Eastern countryside in the Islamic era

The Crusades from the Perspective of Byzantium and the Muslim World Angeliki E. Laiou, Roy P. Mottahedeh, 2001 The essays in this volume demonstrate that on the eastern shores of the Mediterranean there were rich variegated and important phenomena associated with the Crusades and that a full understanding of the significance of the movement and its impact on both the East and West must take these phenomena into account
