## CASE STUDY

**ISSUE**

**1**

An inadequate number of high-speed charging stations in key urban areas led to extended downtime for our EV logistics fleet.

**2**

Inefficient route planning for EV logistics led to increased energy consumption and reduced delivery capacity.

**3**

Lack of real-time tracking and management of the EV fleet hindered operational transparency and responsiveness.

**IMPACT**

This limitation led to a 20% decrease in delivery speed and efficiency, resulting in a noticeable dip in customer satisfaction.

The inefficient routing caused a 15% increase in energy usage and a 10% reduction in daily delivery volume.

This gap led to challenges in fleet management, including delayed responses to maintenance needs and underutilization of vehicles.

**SOLUTION**

Positive Charge installed advanced, rapid-charging stations at strategic urban locations, significantly reducing charging time and fleet downtime.

We implemented a dynamic route optimization software, integrating real-time traffic and vehicle charge data, thereby optimizing routes for energy efficiency and delivery speed.

We developed and integrated a comprehensive fleet management system, including real-time tracking, predictive maintenance alerts, and utilization analysis.

Varun Mayya, Abhinav Chhikara, 2018-07-18 Pyjama Profit is a guide for millennials to get started with a self-sustained online freelance practice while developing their skills needed to succeed. The book talks about in-demand online skills and the different paths one can take to become an expert in these fields. A stable income from freelancing in college was the bedrock that had allowed the authors to explore their ambitions further and get to where they are today. In the process, they've worked with many of their own batch mates, colleagues, and friends to help them set up highly successful freelance careers. The author duo decided to detail their story of what worked for them and how anyone in the country could thrive without being tied down to a full-time job. The authors feel the timing of the book is perfect because of the growing freelance economy and growing aspirations among millennials to find a job they love and not just something that pays their bills.
