They are likely to be preyed by economic and social issues. **Beginner's Guide to Freelancing: Understanding Upwork** The Ultimate Guide on Succeeding as a Freelancer is a wonderful book that concentrates on the tips and secrets you need to understand for you to be successful as a freelancer on Upwork. This book explains the meaning of freelancing as a career where individuals are working in various aspects by sitting at their home at their very own pace, marketing their services on per-hour, daily, or task basis and not as regular staff by one employer. You ought to read this book which will help you in taking your first steps into freelancing. To start off the journey, you will need a starter kit which comprises of a computer with basic applications like Microsoft suites, Photoshop, or Notepad, and an internet connection. You will then need to train on the necessary skills like good communication skills, time management skills, and a professional skill like writing good grammar and spelling. Understand the reason you are joining freelancing: your own personality, financial needs, and social status. If you want to be your own boss, then freelancing is the best option. You will enjoy other benefits like having no overhead costs since you may work from the comfort of your home, a stream of earning income, and research equips you to be knowledgeable among many other benefits. On the contrary, a major drawback of freelancing is the uncertainty of work and the income, and lack of company benefits like bonuses, pension, health insurance, and paid holidays. Upwork is a great freelancing platform. It gives everyone equal and fair chances to secure a job with a client. What you need to do is bid for the job, specifying your skills, and negotiating with the client. You will be rewarded for your efforts once you complete projects; your payments are protected by the Upwork platform, and it will give you a good ground to showcase your success. With resilience, quality work, and good communication with your clients, you will become top-rated on the platform, which gives you an upper hand in securing jobs. After reading this book, sit down and make a decision to start freelancing today without procrastinating. If you do have some fears around this, go ahead and acknowledge them. Don't ignore huge misgivings you may have about quitting your job or investing a large sum of money, but as far as taking steps towards starting your freelancing career, start working on getting into space where you can focus on positive results. To do so, seek support from others who have experience with overcoming the same type of fear of risk that you are experiencing; this could be a writers' group, forum, entrepreneurial friends, etc. Venturing into the unknown can be scary, but if you really want to be a freelancer, you'll need to stretch your comfort zone. Stay motivated, use positive self-talk, focus on helping others, and reflect on previous successes. I learned a deep respect for one of Goethe's couplets: Whatever you can do or dream you can
